

I wanted to reach out to each of you and first thank you for volunteering your talents and time for this exciting new ministry.

Under Joe Bailey's direction, we are making progress with the following:

- A. We just announced that all of us would need to complete the SAFE ENVIRONMENT TRAINING & FINGER PRINTING requirements.
- B. We have the support of our Pastor, Father Moses, who aims for our parish to be more visible in the community.
- C. We are assisting a family identified by Phil Garcia with household issues.
- D. We provided a RING doorbell for a parishioner with home safety concerns.
- E. We have reached out to our St. Vincent de Paul office to coordinate with the assistance they need.

Next Steps:

1. Pick a Monthly meeting time at the church and zoom
 - a. Third Thursday of each Month @ 6 PM @ St. Timothy's
 - b. April 20th first meeting
2. Making our Target Audience-- Parishioners and Community
 - a. Making the audience aware of our Mission and support
 - b. Discuss short and long-term vision.
3. Identify Teams /Individuals who can respond to requests.
 - a. Examples: Seniors Comfort/Prayer Visits, Holy Communion, Transportation
4. Encourage others to join the group!

It would be beneficial if each of you could briefly let me know any skills you have that would be helpful (electrical, plumbing, painting, faith, transportation, physical labor, computer skills, mental health, Law, Security, Good listener, Friendly, etc.).

The one item already identified is transportation - especially a truck. When we need equipment (tools, ladders, etc.), we will reach out to the group as required. I am sure we will be able to grow this list as we receive requests.

I am expecting some requests to visit people who are shut in, lonely or miss contact with parishioners to share their faith. If you are comfortable with such an opportunity, that would be helpful.

I would appreciate any input you may have or suggestions.
