

Source Analysis Assignment

Source citation:

Cite your source using APA style

About the Source:

Write a brief paragraph explaining what this source is. Consider the following questions: What type of source is this (ex: peer-reviewed journal article, book, website, blog, etc.). Who made it available and for what purpose? Who is the audience/who is it written for?

About the Author

Write a brief paragraph explaining why you think the author(s) is or is not credible. Consider the following questions: Who is the author/who wrote this? What do you know about their background and expertise? What makes them qualified or unqualified to write about the topic? How do you know/how did you find out?

About the Information

Write a brief paragraph explaining why you think the source is or is not accurate. Consider the following questions: Where did the author get their information? Are their sources of information credible or not? How do you know?

About Currency

Write a paragraph explaining why you think this source is or is not current enough for your research. Consider the following questions: When was this source published? Is it current enough for your research? Why or why not? Does currency matter for your research?

Overall Evaluation

Would you use this source for your project? Why or why not?
