

AI Prompt–Response Map

Use this template to track how different prompts you give to an AI tool produce different types of responses. This activity helps you reflect on how your wording shapes the depth, style, and quality of AI output. Your goal is to design prompts that push the AI toward higher-order thinking—analysis, synthesis, evaluation, and creativity.

Prompt Version #	Prompt Text	Type of Thinking Prompt Encourages (e.g., recall, analyze, evaluate)	Summary of AI Response	Reflections / What Would You Change?
