Chou, Ruby. Section C. "The Influence of Technology on Modern Education:

A study on students in College of Foreign Language & Literature, FJCU"

With the rapid development of technology, students' study habits and preference have significant changes. This research aims to explore the issue of the improvement of technology has affects students in certain aspects, especially for language learning, and investigate students' future expectation toward education development. Data collection was done by online questionnaire, utilizing the questionnaire to analyze the positive and negative impacts of technology on learning habits, preference, and expectation. The findings of the study indicate that the technology has totally shift modern students' study habits, and a new learning mode has started. However, there are certain disadvantage such as over-reliance and technical issues need to be improve. By investigating actual situation of students' study experience and anticipation, this research provides detail learning experience from students' perception that brought by modern technology, and able to become a reference for future education evolution.
