Regarding Requests for Different Outfits

If you have previously ordered **Emote YCH 1–3** with the **same character** but **different designs**, I can create alternate outfit versions of the corresponding emotes for an additional fee.

⚠ Important Notes

- Even for the **same character**, at least one of the following design elements must remain **consistent: face, hair, or outfit**.
(If all elements are different, even if it's the same character, this plan cannot be applied, and a new commission will be required.)
- This plan is specifically for **clients who have previously ordered Emote YCH 1–3 with different outfits**.
If you would like to order a new outfit for the first time, this plan **does not apply**, and the request will be treated as a new commission.
