

Hey there High Definition

Your company name was brought up when I was working out at the gym the other day, I overheard some guys talking in the gym about how the creatine they bought from your store had given them more energy than ever before, since I was being a little nosey I wanted to check you guys out.

I love how you guys have support available to anyone who has any questions or concerns about their health at any time of day.

However, there are some tactics that could be implemented into your Instagram post, Profiles like Vitamin Shoppe and GNC use these methods that have been tested and proven to be very successful. I hope you found this helpful.

You guys seem very dedicated to providing support to your customers, in order to provide the best fitness lifestyle possible.

Your market would benefit from having the information they need to make a decision on what supplement they would need in order to have the best diet and health.

Here's an Instagram post that you can send out that will increase the number of clicks you get to your website

Your company could benefit from implementing these ideas and blow up the amount of traffic you get on Instagram which will ultimately get more sales on your website.

I have some more ideas so If you guys believe this is the right approach to take. Reply with a yes and we can set up a call sometime next week.

Kind regards,

Max.

Hello High Definition,

Hello High Definition,

I recently heard your company's name, and I overheard some guys talking about the incredible creatine they purchased from your store. so I wanted to check you guys out.

I greatly appreciate the availability of support your company offers to anyone with health-related questions or concerns, regardless of the time of day.

However, I wanted to suggest implementing some tactics into your Instagram posts. Brands like Vitamin Shoppe and GNC have successfully utilized these methods,

Your target market would greatly benefit from having the necessary information to make informed decisions about the supplements that best align with their dietary and health needs.

By implementing these ideas, your company can significantly increase the amount of traffic on Instagram, ultimately leading to more sales on your website.

Here is an Instagram post that you can send out.

<https://docs.google.com/document/d/1drVIE7qBYfiiyr-kJ1BPS9zYzv1p1otlqEletQkg3wc/edit?usp=sharing>

I have more ideas to share, so if you believe this is the right approach for your business, please reply with a "yes," and we can schedule a call sometime next week to discuss further.

Kind regards,

Max.
