

emaste (guest)

emaste says:Where is everybody?

17:59

emaste says:Oh, it's in 1h from now

18:04

jrm (guest)

jrm says:Ah, Ed and I are here, because we have a calendar entry that says now. See you in an hour.

18:05

Alice Sowerby (FreeBSD Foundation)

Alice Sowerby (FreeBSD Foundation) says:My laptop fans are going crazy (not running FreeBSD!). It crashed in the last call so if I disappear it might be that

19:00

E

emaste

emaste says:My FreeBSD laptop overheated and is waiting to cool down now 🙄

19:01

dorin

dorin says:Hello, Is there a screen shared by Chris ? I can't see it

19:06

J

jrm

jrm says:Yes, Chris is sharing his screen.

19:07

E

emaste

emaste says:Please mute if you are not speaking

19:08

Lars Tunkrans

Lars Tunkrans says:mute all microphones to avoid echos

19:09

E

emaste

emaste says:Yes the script needs to be not tied to specific version

19:17

emaste says:It

19:18

emaste says:You need to build from source for drm today

19:20

ross

ross says:Why not publish them in a separate package repository?

19:21

ross says:If they can be built from source, they can be packaged

19:22

E

emaste

emaste says:the review for the packages is still open

19:22

emaste says:so you can build from the drm-kmod source repository, you cannot build from a port

19:22

me

says:<https://freebsd.foundation.org/blog/call-for-testing-introducing-the-laptop-integration-testing-project/>

19:31

Lars Tunkrans

Lars Tunkrans says:<https://lists.freebsd.org/archives/freebsd-bluetooth/>

19:32

Alice Sowerby (FreeBSD Foundation)

Alice Sowerby (FreeBSD Foundation) says:<https://github.com/FreeBSDFoundation/freebsd-laptop-testing>

19:33

E

emaste

emaste says:It's held up by the unreliable bluetooth stack

19:34

D

dorin-

dorin- says:Thanks a lot that help

19:34

me says:maybe useful once you have audio working:

<https://m4c.pl/blog/freebsd-audio-setup-bitperfect-equalizer-realtime/>

19:34

Alice Sowerby (FreeBSD Foundation)

Alice Sowerby (FreeBSD Foundation)

says:<https://freebsdfoundation.org/blog/call-for-testing-introducing-the-laptop-integration-testing-project/>

19:34

E

emaste

emaste says:This is the reason I'm looking for USB dongles so that Christos can work on the bluetooth manageability

19:34

emaste says:All of the infrastructure for CJK rendering exists

19:36

emaste says:and we have a GSoC project (or some other WIP) for IME

19:36

me says:<https://github.com/Cycatz/GSoC2021-VT-IME>

19:40

E

emaste

emaste says:Xe is on the Foundation's laptop project roadmap

19:42

Alice Sowerby (FreeBSD Foundation)

Alice Sowerby (FreeBSD Foundation) says:<https://github.com/FreeBSDFoundation/proj-laptop/issues/111>

19:42

E

emaste

emaste says:Yes it's in drm-kmod

19:42

ross

ross says:I have Iris Xe, this will be nice

19:43

D

dorin-

dorin- says:I am running FreeBSD 15 and llama.cpp as server with NVIDIA RTX but I just got a Intel Arc Pro B70 32 GB card - can you share the link to the intel existing drivers that might work with Intel Arc B70

19:45

ross

ross says:I am running drm-latest-kmod-6.9.1600018_1

19:47

ross says:@dorin, were you asking me? Did I answer your question?

19:48

D

dorin-

dorin- says:I see feature about Graphical interface for working with file manager and zfs snapshots ---- I am using <https://github.com/webzfs/webzfs> it works...

19:48

Alice Sowerby (FreeBSD Foundation)

Alice Sowerby (FreeBSD Foundation) says:<https://github.com/FreeBSDFoundation/proj-laptop/issues/108>

19:50

Alice Sowerby (FreeBSD Foundation) says:^ not scheduler related but related to power/economy tuning

19:51

D

dorin-

dorin- says:For GUI virtualization also the one in Sylve

19:52

dorin- says:where is this LDWG work document ?

19:52

Alice Sowerby (FreeBSD Foundation)

Alice Sowerby (FreeBSD Foundation) says:it's linked from the wiki page
<https://wiki.freebsd.org/LaptopDesktopWorkingGroup>
19:52

D

dorin-

dorin- says:For Virtualization - Bhyve - I am running few servers using <https://github.com/AlchemillaHQ/Sylve>
- it works too - pretty close to Proxmox and Cockpit in Linux ---- but Sylve works
19:53

ross

ross says:Second that. Thank you!

19:55

D

dorin-

dorin- says:Thank you guys - the only criteria for success is continuity and resilience !

19:56

Lars Tunkrans

Lars Tunkrans says:👏

19:57

D

dorin-

dorin- says:where do we see the chat logs

19:57

Everyone dorin-emastejrn
