## **JOIN THE 2024 WALK30 CHALLENGE FROM APRIL 1 TO 30!**

The annual WALK30 is back! In a united community effort, Better Environmentally Sound Transportation (BEST) is collaborating with the City of New Westminster and Burnaby, two Health Authorities (Fraser Health and Vancouver Coastal Health), and TransLink in a four-week campaign. Participants will walk daily for four weeks and track their progress to determine which municipality accumulates the most walking minutes! Follow instructions on recording your daily walking minutes using their tracker and have the chance to win prizes from local businesses.
