🎓 Senior Spotlight: Drake Bird

By Whitko Wire Staff

Drake's favorite subject in school is weights, where he builds strength and pushes himself to improve every day. He's been playing football since 2nd grade, has been wrestling for two years, and has been a part of the track team for five years. Outside of sports, Drake enjoys fishing and spending time with his family. His favorite food is chicken wings, and his favorite color is forest green. After graduating, Drake plans to attend college to become a personal trainer, turning his passion for fitness into a career. This year Drake is most

excited about making the most out of sports and creating lasting memories during his senior year.

Music Spotlight:

This week's music review goes to Reputation by Taylor Swift. Reputation is Taylor's sixth studio album released on November 10, 2017, through Big Machine Records. Taylor produced the album with Jack Antonoff, Max Martin, and Shellback. The album is a mix of electropop, synth-pop, and R&B with elements of urban styles such as hip-hop, trap, and EDM. Taylor took an autobiographical songwriting approach on Reputation. She references her romantic relationships and celebrity disputes. The songs form a linear narrative of a narrator seeking vengeance against wrongdoers, but ultimately finds solace in a blossoming love. This album features singles like "...Ready for it?" and "Look What You Made Me Do". Overall, the aesthetic of this album seems to lean more on the vengeance theme rather than the more lovey side, with the main mascot of the album being a snake. I personally would say this is one of Taylor's best albums song, lyric, and even aesthetic wise.

TV Worth Watching: Modern Family

Modern Family is an American sitcom set in Los Angeles. The series is based on the life of a family described as "modern", in fact the series shows what a modern family looks like today. The show is like a documentary, where the characters sometimes talk right to the camera about what is happening. In general, in every episode something different happens. The show is great because it's both funny and sweet. They deal with everyday family problems, like kids fighting or parents trying to figure things out. I really liked this show, in specific the characters are well written so that they feel like friends. The show is good at making you laugh one moment and feel emotional the next.
