

WIU-SECURE on an iOS Device (iPhone, iPad, iPod, etc.)

BEFORE CONNECTING

If you used WIU-SECURE on campus PRIOR to 05/24/19 please perform the following

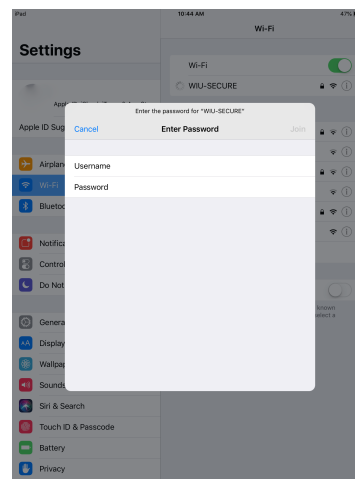

1. Tap on Settings
2. Tap on Wi-Fi
3. If you see any network that begins with “WIU”, tap on each one and tap “Forget This Network”
 - a. Examples - WIU-SECURE, WIU-SETUP
4. Still in Settings, tap on General
5. Scroll to the bottom of the list on the right of the screen and look for Profiles.
 - a. If you have Profiles, tap on it to open.
 - i. If there are any profiles that start with “Auth Reg” or “WIU” delete them.
 - b. If you don't have any profiles, continue to the next step.
6. Continue to the next section to connect to WIU-SECURE

CONNECTING

Perform the following if connecting for the first time OR after completing steps above

1. Tap on Settings
2. Tap on Wi-Fi
3. Tap on WIU-SECURE
4. Enter your ECOM Username in the Username box
5. Enter your ECOM Password in the Password Box
6. Tap Join
7. If a “Certificate” window pops up, tap “Trust”

PLEASE NOTE: If you change your password, you need to follow these steps again or you will lock your account!
