Hello, Wilderness Campground (Montello),

There is no denying that your camping resort is a home for unforgettable memories. We especially love the recreation rentals, virtual tours and the other packages you offer families. We have been following your activities for a while, and we thought this was a perfect time to introduce ourselves to you formally.

We are reaching out because we believe Wilderness Campground will be the best fit for our affiliation package to enhance the camping experiences of families across America.

At Camping Legends, we offer durable, efficient, and the most appropriate camping gear for any type of camping activity. We believe that the ultimate camping experience you offer the families that stay at your resort will not be complete without the right camping gear.

Therefore, we believe our partnership will yield tremendous value for both companies. There would be more families coming to your resort besides from the amazing scenery and activities you have in store for them. We can ensure that every family at all camping activities is geared up with the right camping equipment.

Our goal is to partner with you throughout the year, especially the special events that you have lined up from April through September. This partnership will be a tremendous opportunity for both companies to expand our audiences.

If you are interested, we can set up a phone call later this week to discuss further details of amazing collaboration.
