Everyone is welcome to participate in the Arweave Fullstack Hack in some capacity. Read these rules, they are important and will determine your ability to earn funds.

Referrers: The referral rewards are only for the hackathon phase from Nov. 4 to 21, 2024. Referral rewards only apply to “new team builds” and not “continuous or pass-through team builds”. Continuous team builds are coming from another hackathon, that is the reason for this. The follow-on funding phase is not eligible for referral winnings.

Referral signups must be entered into the system by Nov. 8th by 11:59pm PT at the latest to be eligible for the \$1,000 reward.

- **How You Earn:** You get \$1,000 if someone you refer signs up via <https://community.arweave.net/#/fullstack> first from your code or link and their team wins a bounty. If the individuals you refer don't win or are not the first to sign up to their team, you don't get paid.
- **Max Per Team:** If two or more people you referred are on the same winning team, you still only get \$1,000 for that team via the first signup to that team.

- Example:

Bob signed up at 8am [Luke referred]
Amy signed up at 9am [Marcus referred]
John signed up at 10am [Dustin referred]

They are all on the same team. Luke gets the \$1,000.

- **Max Total Earnings:** You can earn up to \$3,000 if you refer five people, each on separate winning teams that are on new team builds.
 - Any backend tricks to form multiple teams with the same builders behind the scenes will be disqualified from any referral prize or otherwise.
- **Multiple Referrers for One Person:** If multiple referrers claim the same person, only the first one (based on sign-up time) will get the \$1,000.
- **Winning Multiple Bounties:** You only get paid \$1,000 once per referred builder/winner. One individual may not be on multiple teams and be eligible for multiple bounty winnings for this section of the hackathon.

- **Must not be your own team:** If you refer someone to your own winning team, you do not get the \$1,000.

How We Track Referrals:

- **Referral Code System:** The referral code and time of sign-up are tracked. If someone on a winning team used a referral code, only the first referrer (based on time) gets the reward.
 - We use AO computer and a custom CMS to manage this information.
- **Fair Play:** We (the hosts and organizers) reserve the right, in our sole discretion, to disqualify any referrer who violates the terms or the intended spirit of this program. We also will make the final determination for any timing related decisions for rewards and will do our own due diligence as necessary, which may result in discrepancies of what is shown on AO Computer.
- **KYC:** If you are in fact a referrer that is eligible to win, there will be KYC required to obtain your funds.

Hackers/Builders:

- **Team Composition:** At least 50% of teams must be made up of people who have *not* won a hackathon or bounty in this ecosystem (Arweave and AO) in 2024.
 - In app game rewards do not count as bounties or hackathons.
- Teams must consist of 2 to 4 active members.
- You are permitted to participate as a builder in the hackathon and be a referrer. You do not get any reward for referring someone to your own team.

New team builds:

- Teams must be 2 to 4 members total.
- Projects must use Arweave, AO Computer, and/or ArFleet to qualify for winnings. All is highly recommended. At least 50% of teams must be made up of people who have not won a hackathon or bounty in this ecosystem in 2024.
- For new team builds there are up to (3) total bounties of \$5k USD each.
- If you refer someone who wins on a new build team during this hackathon, you may earn \$1,000 USD. [More details here.](#)

Continuous team builds:

- No specific requirement for team size. For continuation teams there are up to (2) total bounties of \$5k USD each.

- To be eligible, must have submitted real/solid project to Permahacks and signup on or before Nov. 8th here.
- No referral awards for continuous builds teams.

The above terms and conditions are subject to change. These terms were last updated on November 1st, 2024 and may not represent the latest details.
