

Author Declaration Statement

I/We, the undersigned, hereby declare that the submitted manuscript, entitled [Insert Title of the Article], is original work, has not been previously published or submitted for publication elsewhere in any form, and does not infringe upon any copyright, intellectual property, or proprietary rights of any third party, in accordance with the principles and guidelines of the Committee on Publication Ethics (COPE) <https://publicationethics.org/membership/code-of-conduct>.

I/We affirm that I/we are fully aware of the definitions of "ghostwriting" and "guest authorship," and confirm that neither applies to this manuscript. I/We also declare that the manuscript represents original work and was independently prepared by the authors.

Authorship contribution statement

The specific contributions according to CRediT (Contribution Roles Taxonomy: <https://credit.niso.org/>) of each author should be identified (Conceptualization; Data Curation; Formal Analysis; Funding Acquisition; Investigation; Methodology; Project Administration; Resources; Software; Supervision; Validation; Visualization; Writing – Original Draft Preparation; Writing – Review & Editing):

Name of Author(s)	Specific Contributions

Conflict of Interest Statement

- No potential conflict of interest has been reported by the author(s).
- Potential conflict(s) of interest has/have been reported by the author(s). Details:
[Insert Explanation, if applicable]

Human Research Ethics

I/We confirm that, where applicable, all research involving human participants has been conducted in compliance with (e.g., the Declaration of Helsinki, Ethical approval from relevant Institutional Review Boards (IRBs), or Ethics Committees) and approved by the appropriate ethics committee or institutional review board. Informed consent was obtained from all participants, and their confidentiality and privacy were strictly protected.

Data Availability and Transparency

I/We affirm that, where applicable, all data supporting the findings of this study are available in the manuscript and/or supplementary materials. Additional data can be made available upon reasonable request.

Licensing Agreement

I/We hereby grant permission for the publication of this manuscript under the terms of the Creative Commons Attribution (CC BY) license, accessible at <https://creativecommons.org>. I/We agree that the work shall be published in accordance with these terms and conditions and may be made available on the publisher's website and any other institutional repositories as appropriate.

Copyright and Permissions

I/We confirm that all necessary permissions for the use of third-party materials (e.g., copyrighted works, trademarks, or figures) have been obtained in writing and duly acknowledged within the manuscript. In the event of any copyright infringement arising from the submitted manuscript, I/we accept full responsibility.
