

Cbd deliver outreach

This could crush the competition in aberdeen for you

Hi there CBD deliver

I came across your website on google and was taken back by how many other shops like yours are in the aberdeen. Must be a competitive area to sell in.

The reason for the email is as I was looking through your website I could not find any social media for your shop. I was quite surprised due to the success of many small businesses that sell and advertising with low risk and very high reward on social media

If you're interested I have some ideas that can get you started even if it's just for your current customers to see new products as well as support the shop then could potentially grow to a global shop. By just sending people through the social media page to your online website.

Thanks Callum
