

September 2, 2021

Notice:

We have recently seen a surge in Covid-19 cases and quarantines in our school district. We want to stay in session and keep students safe. Unfortunately, at this time, we feel the best way to do that is to mandate masks. If all students are wearing masks, then they do not need to quarantine. If students are vaccinated, they will still need to wear a mask at this time. We hope this mandate will be temporary, and once numbers begin to go back down, we will revisit the mask mandate and consider going back to mask-free education. For now, sports and activities along with spectator rules will remain the same. If you have questions concerning this mandate, please, contact your building administrators.
