- i. Demonstrate departmental or office support by having an accredited faculty or staff member write a statement demonstrating support for the student/s.

This presentation and vote shall be carried out each academic year. A vote approving a group, based on their purpose and reason for request, shall be a necessary prerequisite for such a group to apply for funding from student senate at any time during the following academic year.
4. Student Senate will only approve funds for an activity deemed by Student Senate to be adequately planned and organized.

2. There are many methods of acceptable advertising: OC signs, OC taping/events, table tents, flyers/posters, handouts, the Kiosks, fundraising events, mailbox slips, awareness events (nonprofit), chalking, sneak preview performances, campus media (The Cornellian, KRNL...), social media, digital wall, the campus newsletter, class

 4. Organizations or individual sponsors are solely responsible for all advertising of their events.
 5. If an organization's event is suggested to be in violation of this article. The Chair along with Appropriations Committee must conduct an investigation to determine how many valid forms of advertising were utilized for a specific event or range of events.

Article VII. Trips

1. The Student Organization Travel Plan form must be completed, submitted, and approved to receive access to allocated trip funds.

Article VIII. Speakers, Performers, Etc.

In the event that a student organization spends at least \$600 for bringing an individual or group to campus to perform a service (speaking, performing, etc.), that organization shall request a 1099 reporting form from the Business Office no later than two weeks before the date of the engagement unless such individuals or groups are contracted through a management firm or agency. The completed 1099 reporting form must be submitted to the Business Office no later than two business days after the engagement. This is necessary to be compliant with federal laws.
2. No student organization may contract any service without an approved budget or appropriations request. Student organizations can request an early review of their budget request for the upcoming academic year in order to receive permission to contract services in advance, but only if such contracts would then be obtained at reduced rates, or if the event must be booked in advance of the budget approval (e.g. reserving a facility for the Homecoming dance). Student Senate must approve multi-year contracts, and both the organization and Chair of Appropriations must keep a record of the approval.
3. Should a student organization not abide by this section, the Chair of Appropriations, with approval of the Student Senate advisor, may freeze the organization's account and turn the matter over to the Dean of Students for possible disciplinary action.

Article IX. Equipment and Materials

1. Student Senate may fund the purchase of equipment that will remain with a student organization over a period of time (i.e. games, furniture, climbing ropes, etc.), but these items are the property of Student Senate.
2. All lease-to-own agreements and loans must be approved by the Appropriations Committee.
3. Any organization with possession of equipment purchased with Student Senate funds must keep a full inventory of these items and submit this inventory to the Chair of Organizations, to be stored in public files. All equipment must be accounted for at the end of the year and placed in on campus storage for the summer. Stolen or “missing” items may be grounds for a decrease or termination in funding.

4. All equipment purchased with Student Senate funds must be available to the student body when it is not in use by the student organization which possesses said equipment. A written request must be submitted to an officer of the student organization at least one week prior to the date the equipment is to be used. 6. If an organization dissolves, all property purchased with the Student Activity Fee returns to Student Senate to be disposed of, stored, or sold.
7. Materials used by student organizations that are defined as consumable supplies (i.e. office supplies, yarn, paint, etc.) will be reported with the equipment inventories as long as they are still available.
8. Student Senate must maintain paper and paint for use in creating banners for the Commons.
9. Student Senate must maintain a supply of buttons for the button machine. The buttons will be granted to groups through the appropriations or budget processes.

Article X. Reserve Accounts

1. Any student organization may establish a reserve account, with approval of the Chair of Appropriations.
2. One purpose of a reserve account is to combine funding over several years for larger purchases, so as to not put extreme stress on the budget of the student organization or of Student Senate in a single year.
3. Another purpose of a reserve account is to fund purchase lasting equipment or supplies vital to the operation of that organization (i.e. computers, technical equipment, climbing ropes, replacement parts, swords, etc.).
4. Reserve accounts must be maintained separately from the organization's general account, and these funds shall not be reclaimed by Student Senate at the end of the academic year.
5. A collection of organizations can pool together their reserve account funding into a single account so long as the net balance of that reserve account does not go below zero. This collective account will be treated like any other reserve account.

6. If an organization does not require a reserve account any more, the reclamation process shall be observed for any funds remaining in the account and also a separate request shall be sent to the Chair of Appropriations by the main contact for the student organization to terminate the reserve account.
7. Termination of a reserve account funded by Student Senate will be at the discretion of the Appropriations Committee and will result from mismanagement of reserve account funds or if the account is no longer needed.

Article XI. Fundraising and Fundraising Accounts

1. Fundraising money is defined as any funds from a non-Student Senate source, such as donations, fundraising projects, or profits from products sold.
2. Student Senate encourages fundraising by individual groups, as Student Senate is not meant to be a sole source of financial support for groups. Groups are eligible to request seed money to support fundraising efforts. These funds must be returned on use, through the reclamation process.
3. Student organizations are responsible for reporting fundraising totals in their main account to the Chair of Appropriations and the Business Office before the end of the academic year.
4. Student organizations have complete control over money fundraised by their group.
5. If a student organization does a substantial amount of fundraising, they can request the Chair of Appropriations to establish a fundraising account to keep their fundraising money separate from Student Senate-allocated funds in their general account. This ensures that there is no confusion about the source of funds.

Article XII. Funding Restrictions

1. Student Senate-funded groups may not charge a fee for rental of their equipment. The individual who checks out the equipment is responsible for loss or damage incurred while the equipment is checked out.
2. Student Senate will not fund organizations that require membership dues or fines. However, Student Senate groups can co-sponsor campus-wide events with these non-Senate organizations.

Therefore, all films being placed in the library must be pre-approved by the College Librarian before purchase. - 6. Student Senate funds may not be used to purchase alcoholic beverages unless the funding request includes the endorsement of the Dean of Students.

If deviations are made without approval, the Appropriations Committee may consider this a mismanagement of funds.

Disciplinary actions concerning mismanagement of funds will be recommended to the General Assembly by the Appropriations Committee.

5. The Appropriations Committee reserves the right to examine, at any time, all records for any Student Senate-funded expenses of a student organization. If discrepancies are found, the Appropriations Committee also reserves the right to turn the matter over to the General Assembly and/or the Dean of Students for investigation.
6. Student organizations failing to comply or cooperate during audits may be subject to a loss or decrease in funding for the following academic year.
7. All Student Senate-funded groups must keep a separate sub-account in their ledgers for money raised through fundraising. Remember, this sub-account balance must be reported at the end of the academic year so that Student Senate does not reclaim funds that rightfully belong to the group. Groups should retain a copy of such a notice in their financial records.

Article XIV. Annual Budget Process

1. The main budgets for all student organizations shall be approved through Student Senate in the spring semester for the subsequent academic year. All other requests for funding must come in as appropriations requests.
2. Any unrecognized student organization requesting a budget must provide written approval from a College department or office.
3. The Appropriations Committee must provide groups with budget requests and procedure forms at an informational meeting no later than the first Monday of 7th block.

7. The Chair of Appropriations is responsible for scheduling and publicizing the exact dates, times, and locations of the above-mentioned meetings and deadlines.
8. The Chair of Appropriations shall make a good-faith effort to provide budget requests to the General Assembly in advance of budget fest, and update those materials as necessary.
9. If there is any organization who is not confident in submitting their budget by the Seventh Block of the previous Academic Year, they may present during Block 1 of the Academic Year. If there are multiple organizations who need to present during Block 1 there may be a second annual budget process at the discretion of the Appropriations Committee.

Article XV. Funding Process Exceptions

1. Student Senate acknowledges that opportunities for events and activities can emerge spontaneously, at a time when it is not possible for the established appropriations procedure to be followed. Requests for the funding of such activities may be approved if they meet the following criteria:
 - a. The genesis of the event and the event itself occur between Appropriation Committee meetings. The factor of appropriate advertising may be taken into consideration as well
