EXCHANGE STUDENTS COURSE CATALOGUE 26/27

dSEA - Department of Economics and Management

"M. Fanno" - University of Padua

DISCLAIMER: The course units reported in this guide may be subject to changes and cancellation. It is always recommended to check the official website https://unipd.coursecatalogue.cineca.it/ (also for details on period and language of teaching, credits, contents and prerequisites) and the timetables, as soon as available.

Choice rules are explained in our guide " **HOW TO CHOOSE COURSES @ UNIPD** ".
The updated version is available at this page:
https://www.unipd.it/en/prima-dell-arrivo , section: STEP 3 Uploading the Learning Agreement to Mobility Online -> Useful information for filling in the Learning Agreement .

Incoming students must read that guide, first of all. They are free to take courses from other Schools and Departments, as long as they respect the rule choices of each.

They can also take courses from different programs and levels (Bachelor's or Master's), if allowed by their Home Universities and if they meet the prerequisites/required skills.

They can also mix courses held in Italian (in general the University of Padua requires an A2 level, but our Department recommends a B1 level) and English, and mix courses organized in semesters and trimesters.

The following lists of courses are presented divided per study cycle (Bachelor's and Master's level) and per semester or trimester. In order to avoid overlaps, students might consider the possibility to take courses from the same Bachelor's track or Master's programme, track and year. They are presented in the documents after the lists divided per period (semester/trimester).
Keep in mind that those tracks ARE NOT COMPULSORY.

Please note that those two courses are indicated in the Course catalogue as courses that take place during the second semester, BUT they actually start around the end of April and end at the beginning of June. The courses are normally confirmed at the beginning of the semester.

Exchange students are free to combine all available Bachelor's degree course units. Those at Bachelor's level can also take courses at Master's level, if they meet the prerequisites ("Required skills") and if their home University allows them to do so. We invite you to check the course catalogue for confirmation, details on period and language of teaching, credits, prerequisites, contents and the timetables website (timetables are available a few weeks before the start of the lessons).

Bachelor's TRACKS

When preparing the Learning Agreement, timetables may not yet be available and, as attendance is not compulsory (even if highly recommended), the Learning Agreement is approved even if there are overlaps. Therefore, if you want to attend all the classes, you will have to modify your Learning Agreement in case of overlaps.

The table below suggests some tracks that you might consider if you want to make sure there are no overlapping courses.

All included courses are taught during the first and second trimester (October - April).
