

Faceless AI Shorts Empire

Build an AI Influencer Business Using One Prompt

 What This Guide Gives You

Inside this guide you will learn how to create a complete AI influencer content system without showing your face.

You will run one simple prompt.

That prompt will generate:

- A unique AI influencer concept
- A full character design blueprint
- 20 viral short-form video ideas
- Ready-to-use video scripts
- A simple content posting plan
- A clear monetization strategy

No brainstorming.

No complicated setup.

No guesswork.

Just run the prompt and get a finished content plan.

Why Short-Form Content Wins

Short videos are now the fastest way to grow an audience online.

Platforms like:

- YouTube Shorts
- TikTok
- Instagram Reels

all reward short videos that keep people watching.

This means even brand-new accounts can get views.

You don't need:

- ✗ A big audience
- ✗ Expensive equipment
- ✗ Video editing skills

You only need good ideas and consistent posting.

This system helps you generate those ideas instantly.

Why AI Influencers Are Exploding

AI influencers are growing fast because they allow creators to:

- Stay completely faceless
- Post unlimited content
- Create unique characters
- Build niche themed pages
- Run multiple channels at once

Instead of being the influencer...

You create the influencer.

 What Makes This System Different

Most guides only explain ideas.

This system generates the work for you.

You enter three simple inputs:

- Your niche
- Your platform
- Your content style

Then the prompt builds your entire AI influencer content plan.

You can repeat the process anytime to create:

- new pages
- new influencers
- new content ideas

Who This Is For

This guide is perfect if you want to:

- Create content without showing your face
- Start AI influencer pages
- Grow on TikTok, Reels, or Shorts
- Build niche content accounts
- Turn traffic into online income

No technical experience required.

Everything is simple and beginner friendly.

What Happens Next

On the next page, you will see the engine behind the

system.

This is the One Prompt that builds your AI influencer content plan.

Once you run it, you will receive everything needed to start posting immediately.

=====

SECTION 2 — THE ENGINE

The One Prompt That Builds Your AI Influencer Content System

This is not a prompt idea.

This is a complete execution prompt.

When you run this prompt, it will generate a full AI influencer content plan that you can immediately use to start posting short videos.

You only need to fill in three simple inputs:

- Your niche
- Your platform
- Your content style

Everything else will be created automatically.

The output will include:

- A unique AI influencer concept
- A full character design blueprint
- 50 viral short-form video ideas
- Ready-to-use video scripts
- A simple posting plan
- A monetization strategy

You can run this prompt again and again to build multiple AI influencer pages.

THE ONE PROMPT ENGINE

 Copy everything between the markers

   START OF MASTER PROMPT   

You are an expert AI influencer strategist and short-form video content creator.

Your task is to build a complete faceless AI influencer content system for short-form video platforms.

You must NOT ask questions.

You must make clear decisions and execute fully.

Your goal is to create a ready-to-use system that helps someone launch and grow an AI influencer page.

INPUT CONTEXT

Niche:

[INSERT NICHE]

Platform:

[YouTube Shorts / TikTok / Instagram Reels]

Content Style:

[Examples: motivation, storytelling, facts, tips, education, comedy, commentary]

STEP 1 — CREATE THE AI INFLUENCER

Create a unique AI influencer for this niche.

Include:

Influencer Name

Character Concept

Personality

Voice Style

Catchphrase

Audience Target

STEP 2 — CHARACTER DESIGN BLUEPRINT

Describe how the AI influencer should look.

Include:

Hair style

Eye style

Clothing style

Unique visual traits

Facial details

Overall vibe

Make the character visually interesting so people stop scrolling.

STEP 3 — AI CHARACTER GENERATION PROMPT

Now create a ready-to-use prompt the user can paste into an AI tool to generate the influencer visually.

This prompt must be based on the character design you created above.

Provide a simple but detailed prompt.

Then explain where they can use it.

Mention beginner-friendly tools such as:

- Leonardo AI

- Midjourney
- Runway
- HeyGen
- Sora (if available)

Explain briefly that they can paste the prompt into these tools to generate their AI influencer image or avatar.

STEP 4 — VIRAL VIDEO IDEAS

Generate 20 viral short-form video ideas designed for the selected platform.

For each idea include:

Video Title / Idea

Why This Idea Works

(Explain briefly why people will watch this video.)

Make sure the ideas are:

- simple
- engaging
- curiosity driven
- perfect for short videos

Important:

Tell the user that you will now create video scripts for each of these 20 ideas.

STEP 5 — SHORT VIDEO SCRIPTS

Now create 20 complete short-form video scripts based on the 20 ideas above.

Each script must include:

Hook (first 3 seconds)

Main Content

Closing Line

Call-To-Action

Scripts must be suitable for 30-60 second videos.

The scripts should provide real value, not vague or shallow information.

Each script should feel helpful, interesting, or insightful for viewers.

The AI influencer should be able to speak these scripts naturally.

STEP 6 — SIMPLE POSTING PLAN

Create a simple beginner posting plan.

Include:

How often to post

Content consistency strategy

How to stay consistent with short videos

STEP 7 — MONETIZATION PLAN

Create a simple monetization plan for this AI influencer page.

Include ideas like:

Affiliate products

Digital products

Email list building

Lead magnets

Brand sponsorships

Make everything beginner friendly.

FINAL NOTE FOR THE USER

Explain that if they want more content ideas, they can simply ask:

“Generate 10 more viral video ideas with scripts for this influencer.”

The system should then continue generating new ideas and scripts.

⚙️ SECTION 3 — HOW TO USE THE SYSTEM

This section shows you exactly how to use the One

Prompt Engine to create your AI influencer content system.

The process is simple and takes only a few minutes.

Follow the steps below.

Step 1 — Choose Your Niche

First choose the topic your AI influencer will talk about.

This will determine the type of content your videos will focus on.

Choose something people enjoy watching in short videos.

Examples:

- Fitness
- AI tools
- Motivation
- Business tips
- Health
- Productivity
- Movie facts
- Technology
- Gaming

Example:

Fitness

Step 2 — Choose Your Platform

Next choose where your videos will be posted.

Popular short-form platforms include:

- YouTube Shorts
- TikTok
- Instagram Reels

You can start with just one platform.

Example:

TikTok

Step 3 — Choose Your Content Style

Content style controls how your influencer communicates.

Examples:

- Motivation
- Educational
- Tips
- Storytelling
- Comedy
- Commentary
- Facts

You can combine styles if needed.

Example:

Motivation + Tips

Step 4 — Open ChatGPT

Now open ChatGPT.

Copy the entire master prompt from the previous section.

Paste it into ChatGPT.

Step 5 — Replace The Three Inputs

Inside the prompt you will see three inputs.

Replace them with your information.

Example:

Niche:

Fitness

Platform:

TikTok

Content Style:

Motivation + Tips

Step 6 — Run The Prompt

After filling the inputs, run the prompt.

ChatGPT will generate your complete AI influencer system.

You will receive:

- AI influencer concept
- Character design blueprint
- AI generation prompt for creating the influencer
- 20 viral video ideas
- 20 full short-form video scripts
- A posting plan
- A monetization strategy

Everything will be created automatically.

Step 7 — Create Your AI Influencer

In the output you will receive a ready-to-use AI generation prompt.

Take that prompt and paste it into an AI tool such as:

- Leonardo AI
- Midjourney
- Runway
- HeyGen
- Sora (if available)

These tools can generate your AI influencer image or avatar.

Once generated, this becomes the face of your content.

Step 8 — Create Your Videos

Use the 20 scripts provided in the output.

Each script is designed for 30–60 second short videos.

Your AI influencer can deliver the script using:

- AI avatar tools
- AI video tools
- voice generation tools

Or you can simply display the character image and add voice narration.

Step 9 — Start Posting

Follow the posting plan provided in the output.

Consistency is important.

Short-form platforms reward creators who post regularly.

Even brand-new accounts can go viral with strong content.

Step 10 — Generate More Content Anytime

Once you finish using the 20 scripts, you can create more content easily.

Simply tell ChatGPT:

“Generate 10 more viral video ideas with scripts for this influencer.”

The system will continue generating new ideas and scripts.

This allows you to create unlimited content for your AI influencer page.

Repeat The System

You can run the prompt again anytime to create:

- new AI influencers
- new niches
- new content ideas
- additional scripts

Every execution creates a new AI influencer content system.
