

How to restore your VM from a snapshot

Jing, mqjing@gmail.com

Command:

virsh **snapshot-revert** <your domain> <your snapshot id>

ex:

Step 1: List your domain snapshot history

virsh **snapshot-list** my_new_vm

```
jing@jing-XPS-L412Z:~$ virsh snapshot-list my_new_vm
Name                               Creation Time                   State
-----
1395299072                         2014-03-20 15:04:32 +0800      running
```

Step 2: Restore the VM

virsh **snapshot-revert** my_new_vm 1395299072

```
jing@jing-XPS-L412Z:~$ virsh snapshot-revert my_new_vm 1395299072

jing@jing-XPS-L412Z:~$ virsh list
Id Name                               State
-----
2  my_new_vm                           running
```
