Not in the game:

If you tried to enter one of these artists' names in the Music Training game, you'd get a message saying that "Music Pets" didn't have any music by that artist. The game would suggest up to ten similar artists.

For example, The Beatles had no music in the game, but you could find music by Paul McCartney or his band Wings.

“Music Pets” did not have music by labels merely distributed by Universal, such as ABKCO, Big Machine, Concord or Disney.
