

## MHS CLUBS & ENRICHMENTS

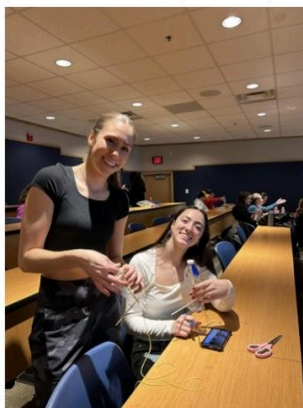

**2023-2026**

### ***Class of 2026 Legacy Project***

The Legacy Project is a community service based group that works on local and global projects. If you are interested in serving your community and working with your peers to improve the lives of others this is the club for you!

Our generation directly experiences the effects that plastic can have on our community. **We are advocating for a cleaner, and more sustainable community, and to move towards a plastic free environment!** We will do a service project this spring to help combat plastic based pollution in the Minnetonka community.

**Don't worry if you're not "officially" part of the club; everyone is welcome to come to our meetings!**
