

PREPARING A PAPER FOR PUBLICATION IN THE PROCEEDINGS, APMT-2022 (Style: Times New Roman bold 14pt.)

AUTHOR NAME SURNAME(S) (Style: Times New Roman 14 pt)
Name of institution, address, e-mail (Style: Times New Roman italic 12 pt)

Abstract: (Style: Times New Roman, 12 pt, not more than 200 characters). These guidelines (laid out in the recommended format of a published article) summarize the key requirements for an article to be published in APM-2022 Proceedings. Articles will not be edited, proofread or have changes made to the layout. It is, therefore, the author's responsibility to ensure that the content and layout are correct - no changes can be made after publication.

1. Key requirements (Style: Times New Roman bold 14pt.)

The following lists the essential requirements for an article to be published in the Proceedings:

- Page size should be A4;
- each page should have clear margins of 2 cm;
- pages should not contain page numbers, running heads or footlines;
- all articles *must* contain an abstract;

1.1 Layout of the title page (Style: Times New Roman italic 14pt.)

The title should be followed by a list of all authors' names and their affiliations. The style for the names is initials (no periods) followed by the family name. The authors' affiliations follow the author list. If there is more than one address then a superscripted number should come at the start of each address; each author should also have a superscripted number or numbers following their name to indicate which address, or addresses, are the appropriate ones for them. E-mail addresses may be given for any or all of the authors. The abstract follows the list of addresses. As the abstract is not part of the text it should be complete in itself; no table numbers, figure numbers, references or displayed mathematical expressions should be included. It should be suitable for direct inclusion in abstracting services.

Do not leave extra space between paragraphs.

2. Figures and tables

Figures and tables should be numbered serially and positioned (centered on the width of the page) close to where they are mentioned in the text, not grouped together at the end. Each figure and table should have a brief explanatory caption.

Table – Name

A	B	C	D
-	12	23	11

Table/figure: 12 pt Times New Roman, space after table, Word ‘Table’ or ‘Fig’ boldface.

3. References

Style: Times New Roman, 14 pt. A complete reference should provide enough information to locate the article concerned in print or electronic form. If you are unsure of a particular journal’s abbreviated title it is best to leave the title in full. References to printed journal articles should be [cited using ACS guidelines](#).
