Rom ToolBox - credit Jrummy16:

Moving forward Gummy will include Jrummy16’s fabulous application ROM ToolBox

For a list of the awesome tools and applications included with this, [see the application on the market](#)

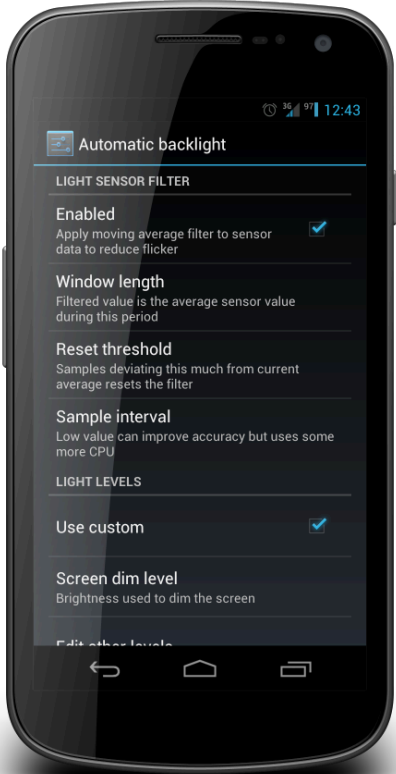

Power Widgets - credit CM:

Ported from CM and modified by Team Gummy the new widgets should have every option and widget anyone is looking for :)

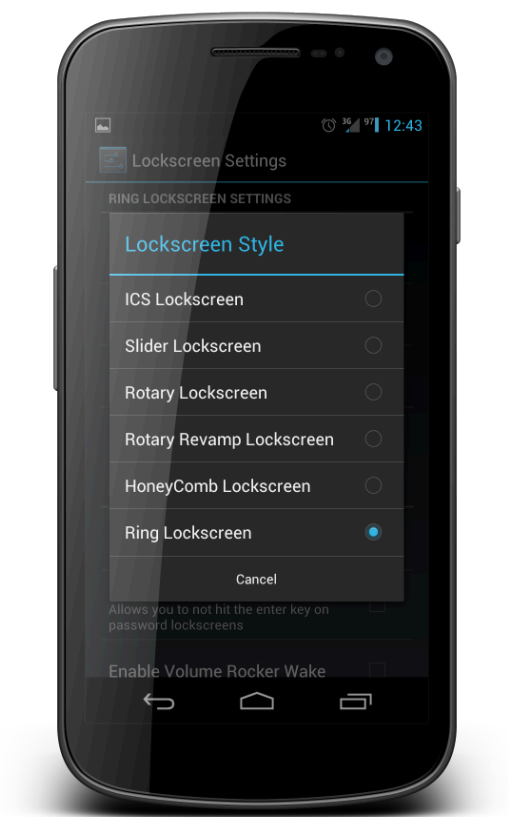

Automatic Backlights - credit CM:

Found under the Display options within Android Settings... Auto Backlight allows you to tweak and modify the way you phone responds with Auto Brightness...

Lockscreens Galore:

Gummy now comes with about every lockscreen you would ever want... This is a first for many of these lockscreens, at least for ICS..

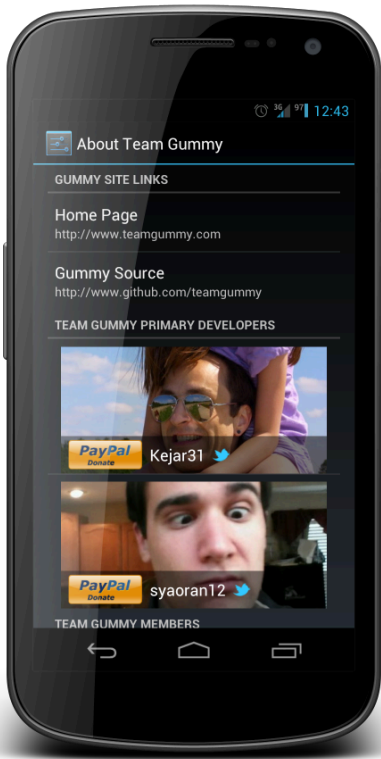

New Lockscreen Music Widget:

If you don't like how the ICS music widget takes over the whole lockscreen then you are in luck! Checkout out the new open to use the Lockscreen Music Widget "Revamped ICS". This has been revamped after the SGSII style music widget.

About Gummy:

Gummy now includes a new About Screen you can find links to our home page and our team member's twitter accounts. Last but not dev's.. Not to sound as though we are creating Gummy take a lot of time. Getting a pace forward in development. So please if you the project grow in features and expand to new

within Gummy Settings. Within this section source code.. You can also find links to the least you can find donate links for the primary complaining (as we do this for fun) but donation is great motivation to keep our quick enjoy our work donate as it very much helps devices.
