Bi-monthly Call: 12/02/2021 12:00 EST

15. Olivia Wong, X University (Ryerson)

Agenda Items and meeting notes

- Convener is Don Gourley
 - Assign note-taker (Convener) - *5 min*
 - Welcome - intros for new folks & roll call: name, institution - *5 min*
 - Logistics: need new meeting link! The one we've been using is broken :(ul> - Jamen will generate new link; Stephen will update the calendar with new link
- Topic(s) of the day: **Using external systems with Archivematica**
 - Integrating Islandora and Archivematica - WRLC (Tom Boone, Don Gourley)
 - Integration is an automatic pipeline that's purpose is to create AIPs and push into the cloud
 - Content is already curated as part of the Islandora ingest process, so the goal is to get a copy of the content stored in a remote location for digi pres
 - Partner dashboards allow stakeholders to integrate Archivematica with digi pres workflows locally
 - Currently on Islandora 7 but in discussion with Discovery Garden (DGI) re: extending version 7 functionality
 - No dissemination from Archivematica - Archivematica just builds the AIPs.
 - However, considering flipping the workflow so that things are ingested in Archivematica *first* and then ingested into Islandora later.
 - Integrating Archivematica with ArchivesSpace - RAC (Bonnie Gordon)
 - Previous integration does not move files around; it generates metadata and uploads to ASpace
 - Now, they rely on a microservice approach with Django applications. Things are bagged via APTrust
 - Integrating Dataverse and Archivematica - Scholars Portal (Grant Hurley)
 - Longer presentation at Dataverse 2021 Community Meeting: [recording](#) | [slides](#)
- Verify Convener for next call on February 3, 2022 12 PM Eastern / 9 AM Pacific - *5 min*
 - Shira Peltzman, UCLA Library
- Potential topics for February 3 call
 - *Upgrading Archivematica*
