Here is a link to a blogpost page which in turn has links to support documents produced by Helen. (These include 'at a glance' comparison (2 sided), a detailed comparison (120 pages!), a grammar list and a verb list. There will eventually be a vocabulary spreadsheet.

DESCRIPTION

This playlist brings together a series of videos which I have prepared to share the background to and my analysis of the GCSE specifications for French German and Spanish to be first taught 2024 and first tested 2026.

They are very informal videos (not edited, not slick!) where Helen walks you through the official documents to which exam boards have to respond, and then the specifications and Sample Assessment Materials (SAMS).

WARNINGS

The audio does not always exactly sync with the mouse cursor and audio, This is particularly noticeable in the speaking video, and I will re-do this ... some time!

There may be some inaccuracies. Please feel free to let me know if you spot anything!

I strongly recommend you speed up the video using settings / playback speed / 1.5 (or even 1.75/2!).
