

Can you smell the baloney?

Directions: Listed below are ten different web pages. Your job is to determine if the site is reliable, unreliable, or somewhat reliable. Sites created as deliberate hoaxes, sites providing erroneous information, or sites making claims not supported by evidence are NOT reliable. Mark sites as "biased" if they have a strong ideological bias of which one should be aware or if their information is based mainly on personal opinion. Write your answers in the space below, and then turn this form into the Schoology assignment created for you.

The Web Sites	Your Vote	Explanation/Evidence (How did you decide?)
1. http://www.caffeineinformer.com/death-by-caffeine 2. http://www.malepregnancy.com/ 3. http://m.runpee.com/apps.php 4. http://www.texassecede.com/faq.htm 5. http://www.cpusa.org/ 6. http://sandycarter.com/iridologynow/ 7. http://www.dhmo.org/ 8. http://city-mankato.us/
