

Dear Greater Hampton Roads Alumni Chapter,

Thank you for choosing me as a recipient of the Anderson Memorial Scholarship. Upon receiving the news, I was overjoyed to be chosen and able to represent Hampton Roads at Penn State. As a student who has not received much aid, this scholarship has greatly impacted the cost of my education. Currently, I am a Liberal Arts student and plan on majoring in Psychology with a minor in Child Malpractice and Advocacy Studies. Post-undergrad, I plan to continue my education through my Masters and Doctoral degrees. Alongside my coursework, I am a member of Delta Phi Epsilon, where I serve as a fundraising coordinator. With elections approaching in the spring, I plan to run for even more positions. Additionally, I am currently surviving as an undergraduate research assistant for the CAT lab here at Penn State. My work focuses on behavioral coding and the relationship between mothers and infants. With this scholarship, I can focus more on these items.

Thank You,
Madison Wilhelm
