Skyview Middle School

Safe Wings, Bold Flights: Eagles RISE to New Heights

Ms. Sharyn Mehner

Principal, Skyview Middle School

Sharyn Mehner is the Principal of Skyview Middle School, where she is committed to fostering a dynamic, student-centered learning environment where every individual is heard, valued, and empowered to succeed. With over three decades of experience in education – including leadership roles at North Creek High School, Bothell High School, and the Secondary Academy for Success – Sharyn brings a wealth of expertise in instructional leadership, equity, and student engagement.

Sharyn holds a Master of Education in Instructional Technology from City University and a Bachelor of Arts in Secondary English Education and Psychology from Western Washington University. She earned her Principal and Program Administrator Certification through the University of Washington's prestigious Danforth Educational Leadership Program. Her passion for education extends beyond the classroom, as she has played a key role in developing career and technical education programs, promoting project-based learning, and strengthening partnerships between schools and the broader community.

A dedicated advocate for student success, Sharyn has devoted her career to empowering students to explore their interests, think critically, and develop solutions to real-world challenges. She has been instrumental in implementing AVID, Multi-Tiered Systems of Support (MTSS), restorative practices, and student wellness initiatives. As a champion for innovative and experiential learning, she ensures that all students, regardless of background, have access to opportunities that inspire curiosity, critical thinking, and personal growth.

Outside of school, Sharyn enjoys listening to audiobooks, photography, walking her Goldendoodle, exploring the Pacific Northwest, engaging in crafts, and spending quality time with her family. She is honored to serve the Skyview community and is committed to leading with collaboration, integrity, and a vision for continuous growth.
