

I could help you with more of these.

Hey Chef Kyle,

I was looking at your website, and I was truly amazed at your work like your steak tartare or your Pouding Chomeur, or even how you distinct yourself by teaching your client how to make their favorite meals at **home**.

I have analyzed what most business in your niche tends to do or not do that keep them away from their true potential.

Genius like you are, you know the power of a newsletter. With the use of human persuasion, I could make your visitors become clients.

This is a way for you to take your business to the next level.

The benefit of having a **new** style of newsletter is that you show value to your potential next client before they even book you.

Kyle, I have made you examples of the work I've done with newsletters to make people buy your amazing services.

(You can see them in the PDF files below).

So Kyle, what do you think about these newsletter examples?

You can reply to me via this mail or on [Linkedin](#)

I wish you a great day my friend.
