

## Hybrid Protocols for Room M5

**The QR code for the Bathrooms/Hall Pass:** is located on the wall to the left of the door. Remember to ask students to check in and out with their iPads anytime they leave the room.

**Entry Procedure:** Students will enter the room and go directly to their assigned seat.

**Lunch Procedure:** AT 1:10 have students begin washing hands one at a time. If students prefer they may use hand sanitizer instead of washing their hands. (Walk around the room and squirt hand sanitizer on any student's hand who needs it.) Students should have clean hands and be back at their desks ready for lunch at 1:15. Remind students to place their backpacks on a blue tape "dot" before they leave for recess. The lunch supervisors will bring in the hot lunches and begin supervising at 1:15. You are free to stay and eat your lunch in the room, eat in the math commons or in your vehicle. Be ready to supervise students as they return from recess at 11:45. When students return from recess they will stand on the blue "dot" where they placed their backpack. At 11:50 dismiss the students using the exit procedure.

- Students may only have their masks off for the 15 minute lunch period
- Students will remain in their desks during lunch
- Students will dispose of their food waste in the large trash cans in the commons.
- If you are able, you can play music or a video for students while they eat.
- Students may use their phones during lunch
- The lunch supervisors will sanitize the tables after the students eat their lunch.

**Exit Procedure:** Approximately 5 minutes before the end of the class, call on individual students to line up on the blue tape "dots" on the floor. As students line up, spray the tables with 2 sprays of disinfectant. After all students have lined up and all tables have been sprayed, go back and dry mop the table tops. (This should allow 60 seconds for the disinfectant to be in contact with the table surface.) When the bell rings allow the students to exit one at a time maintaining 6 feet between students leaving and between students already in the hall.

**Wing Procedures:** Teachers will allow one student at a time to exit each classroom in turn, similar to a 4 way stop when driving.

**Where to find materials/supplies:** The mop handle and disinfectant spray bottle are located on the back counter. Hand Sanitizer is on the desk by the door. Dry and charged mop heads are located on the counter in the commons. Additional masks are in the cabinet over the sink.

**Additional supplies for students:** Notebooks, paper, pens and pencils are located on the back counter. Give students what they need and ask them to keep the items. Remind the students not to share with each other.

**Students with Special Considerations:**
