

Setting Up Your Interactive ELA Notebook

Hyperdoc

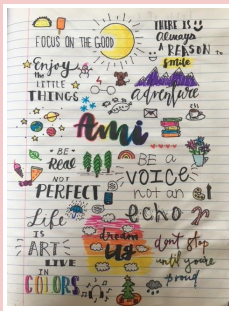

Explore

Watch this short [video](#) about the purpose and benefits of using an interactive ELA notebook.

Be sure to check out the Interactive ELA Notebooks from previous years to see the portfolio you are building throughout the school year for this class.

Explain

"About the Author Page" or Cover Page (Page 1)

Create an annotated portrait of yourself using words and images of ten things that represent you. What are your favorite things to do? What do you like to do when you are not in school? Who are the people, pets, or events that influence you? Choose your favorite quote or motto to include in on your self page.

Organize

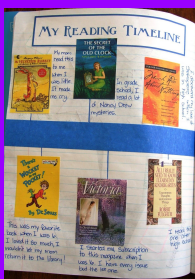

Table of Contents (2-5)

We will use the first four pages of the notebook as the table of contents.

The table of contents is simple to set up. We make a chart with page numbers and what's on each page. We add a lot of assignments during the year, so we will need all of the first four pages.

Reflect

Reading Timeline (Pages 6–7)

Just like in social studies, timelines are used to keep track of important events that have influenced history. For a **Reading Time** time, we're interested in the books and reading events that have shaped you as a reader.

Record the most influential books that changed your life for the good and the bad - explain more about how these books changed your life. What are your likes and dislikes about reading? What are your strengths and weaknesses as a reader?
