

# ORAMABO GIFT, Software Developer

Contact: +2349061152109 | [Github](#) | [Linkedin](#) | [Gmail](#) | Lagos, Nigeria.

## PROFILE SUMMARY

Results-driven Software Developer specializing in building scalable, responsive web and mobile applications. Proficient in modern JavaScript frameworks (React, Next.js, Angular) with expertise in TypeScript, performance optimization, and cross-platform development. Proven track record of accelerating product launches and mentoring junior developers while maintaining 100% code quality standards.

## TECHNICAL SKILLS

---

**Technical Skills:** HTML, CSS, JavaScript, Typescript, ReactJs, React Native, NextJs, Angular.

**Libraries:** JQuery, Bootstrap, Tailwind,

**Tools:** Git, Npm, Pnpm, Webpack

**Testing Frameworks:** Jest, Cypress,

**Practices:** Responsive design, SEO best practices, Accessibility, Universal Compatibility,

## WORK EXPERIENCE

---

**Frontend Developer** – Global Nexus Solutions LTD.

**February 2025**

- Accelerated product delivery by architecting 20+ reusable UI components in Next.js and React Native, reducing development time by 35%
- Successfully launched Vendora marketplace 3 months ahead of revised schedule after joining team mid-project
- Optimized cross-platform performance using TypeScript and SCSS, achieving 95+ Lighthouse scores across web and mobile
- Streamlined deployment pipeline by coordinating Google Play Store publication, reaching 1,000+ downloads within first month
- Enhanced team velocity by implementing Git workflows and leveraging ClickUp/Slack for asynchronous collaboration

**Frontend Developer** – Bincom Dev Center.

**September 2023 - February 2025**

- Increased client conversion rates by 40% through development of high-performance landing pages (eMigr8-business)
- Engineered hybrid mobile applications using Angular, Ionic, and TypeScript, deployed to 500+ active users on Google Play Store
- Mentored 15+ developers in transitioning from web to mobile development using Cordova and Angular frameworks
- Reduced bug reports by 30% through implementation of comprehensive testing protocols and code review processes
- Collaborated with design teams to translate Figma prototypes into pixel-perfect, accessible mobile interfaces

**Frontend Developer (Intern)** – CloudFro Inc.

**September 2023 - August 2024**

- Built 30+ production-ready React components with HTML5, SCSS, and JavaScript, deployed across 5 client projects
- Improved application load time by 45% through strategic state management optimization and lazy loading implementation
- Ensured cross-browser compatibility by conducting rigorous testing across Chrome, Firefox, Safari, and Edge
- Contributed to codebase quality by participating in peer code reviews and maintaining 95%+ test coverage with Jest

## PROJECTS

---

### [Vendora Marketplace](#)

**Tech Stack:** Next.js, TypeScript, Tailwind CSS, Redux Toolkit, Shadcn/ui

- Architected multi-vendor e-commerce platform handling 100+ concurrent users with seamless cart and checkout experiences
- Implemented Redux Toolkit for state management, reducing cart-related bugs by 80%
- Integrated RESTful APIs for product catalog, order processing, and vendor dashboards with comprehensive error handling
- Achieved 98 Lighthouse performance score through code splitting and image optimization strategies

### [UltraBand Entertainment](#)

**Tech Stack:** Next.js, Supabase, TypeScript, Tailwind CSS

- Developed full-stack event booking platform with headless CMS enabling non-technical content updates
- Built dynamic admin dashboard managing 50+ events, 200+ gallery images, and embedded media content
- Integrated Supabase backend for real-time data synchronization and secure authentication flows
- Ensured WCAG 2.1 AA compliance across all user-facing components

### [Vendora Marketplace App](#)

**Tech Stack:** React Native, Expo.

- Built out the android version of the vendors Marketplace

## EDUCATION

---

- **B.Tech. Chemical/Petrochemical Engineering** - Rivers State University, Rivers State **2023**

## KEY ACHIEVEMENTS

---

- Successfully shipped delayed product 3 months ahead of revised timeline
- Mentored 15+ developers in mobile development transition
- Achieved 92+ average Lighthouse scores across all production applications
