

All About Aspen !!

Written by the members of the Plant Cabin

You can find a colorless version at the end of the doc if preferred!

Ever since they've been a small sprout themselves, Aspen has enjoyed gardening; taking care of other little plants, even making and painting pottery pots to give them a nice home. Aspen grew up with a loving and full household with many siblings; they have roots all over the world and ancestry from various places. Due to having such a loving family, they adore giving compliments to anyone they can find; they strongly believe a small compliment can go a long way. Aspen's parents were loving, accepting people; traits Aspen has inherited from them, always caring for others, offering kind words and compliments, while having a strong dislike of people who are mean and unkind. And, just like any plant wanting to grow, Aspen dislikes small spaces and the darkness.

Aspen's birthday is on April 13th of 2004 making them 20 years old. The Plant cabin mascot uses any pronouns, but prefers they/them. They're really chill, and will talk to you about anything, reciprocating with the same energy and enthusiasm; think of a young old person vibe almost, but with a hint of chill college student. They are a creative soul, who loves collecting and receiving little trinkets that they treasure for life, having an especially strong interest in rocks due to all the unique designs they often find themselves painting on them. Aspen has POTS, which, in their case, means that they are an ambulatory wheelchair user and they also have a medical alert flower-dragon hybrid named Snapdragon to help them.

They have always been known to be the parental figure of the friend group, which to some is ironic as Aspen often becomes overwhelmed with constant physical touch; due to this, large crowds are out of their comfort zone. Despite being the parent friend who always takes care of others, Aspen is really bad at admitting when they are sick, even when everyone around them noticed it already and this kind of behavior is also noticeable in everyday life, because they're actually supposed to wear glasses, but don't, most of the time. Aspen has trouble keeping their hands still, so they like to make little flower crowns and necklaces to give to other campers and mascots, especially their girlfriend Cordelia!

Aspen likes to collect different types of rocks which also include crystals and they mostly collect healing and protecting crystals, as well as giving crystals to Cordelia to show how much they care for her. She loves spending time exploring wildlife and

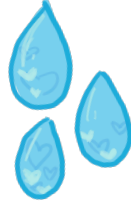

collecting unique leaves for their scrapbook in which they also add dried flowers and pics of his dates with Cordelia. They adore all kinds of insects, their favourite being bees, specifically the buff-tailed bumblebee because of how friendly and adorable they are, even having a few as pets. Aspen practices Paganism and is interested in witchcraft, especially in relation to utilizing herbs and plants to establish connections with divine deities, create different remedies and use in rituals or spells. They love to read to pass the time, one of Aspen's favorite books is Good Omens by Neil Gaiman and Terry Pratchett. Despite Aspen's love for arts, crafts, and nature, they also take great interest in playing video games like Stardew Valley and Minecraft; occasionally dabbling in book writing and fantasy fanfiction as well. Additionally, Aspen likes to do Wheelchair Motocross on days when they feel good enough to; they like the thrill of it. Despite being an old soul, she is always up for an adventure, constantly seeking out new and exciting experiences that challenge their limits and lift their spirit.

Aspen has green eyes, curly ginger hair, and tries to wear a different flower in their hair every day; they also collect the flowers from previous days, pressing and drying them between books so they can display the flowers, ensuring that they are preserved and don't go to waste, so they are enjoyed to the fullest. They love listening to every kind of music, but specifically to Hozier and Cosmo Sheldrake; his love for music reflects in their clothing choice, which is why he wears a lot of band shirts, especially in combination with flowy floor length skirts. Aspen loves to wear shirts or tops with wider sleeves to show off their bulky rings better; they usually find their clothes at local thrift stores. Cordelia and Aspen spend a lot of their time together thrifting and finding eco-friendly activities for dates and days out; more so, Aspen loves spending time with their partner and creating memories to look back on in the future.

Aspen joined a discord server centered around crocheting, and met their long distance friend Maurice there, who introduced them to his sister Cordelia, who, after growing closer and realizing they had a lot in common, became Aspen's partner. Later, Maurice also introduced Aspen to their friend Aether; the two of them also became friends due to this. Writing letters to their pen pal Lyn is one of Aspen's favorite hobbies; they love sending dried flowers, tea bags, things they've crocheted, as well as friendship bracelets to her.

Lux, who they met during middle school at a gardening club, and Calypso, its partner had an inside joke with Aspen that they were their parents as they were both in highschool; as time passed that became a fact to their relationship, and later on Aspen decided to figuratively adopt Kor, a classmate and friend from geography class, adding a member to their little found family. Vuur and Aspen were childhood friends who met through school; however, they drifted apart due to an accident in the garden club that caused Vuur to singe some plants in one of the garden beds. Aspen met Atlas, at a

gardening club when Aspen was in middle school and Earth was in high school. Although not related, Earth is like a pibling to Aspen.

Aspen found out about the elemental camp through Lux, who told both them and Atlas about it after a customer—Vuur—at Lux’s shop had mentioned it during conversation; Aspen was intrigued and accepted the offer with enthusiasm. They’re super happy to be here and hope to have lots of fun and make lots of new friends while she’s at it!
