

Welcome to The Affiliate Institute and The Freedom Builders!

I am so super excited to have you here.

Inside of this doc are the extra tools, training, and community that you get access to because you made the awesome decision to join The Freedom Builders team.

We're more than a team.

We are a community within a community to help support you, guide you, and give you that extra personal help you need to really take advantage of The Affiliate Institute.

The goal:

To help you get the skills to maximize the tools and training here at The Affiliate Institute, to allow you to create income in a way that also gives you massive time.

As Freedom Builders, we believe that...

Wealth = Time + Money + Freedom

When you have them all together, you can create income in a way that gives you the time and freedom to do whatever you love the most.

With who you love the most.

Wherever in the world you want to be.

For as long as you want to be.

Plus, have the ability to use all of the time, money, and freedom you generate to serve the people, communities, and causes that excite and fulfill you.

I hope that you're excited at having the ability to do that.

The First and Most Important Step:

Commit to being here 12 months from now learning, implementing, growing, and serving.

What stops most people from ever succeeding is expecting too much too fast, for too little of an effort.

You can be a Super Affiliate in the next 12 months or less if you commit.

But, if you're all over the place and chasing shiny objects or trying to get wealthy doing nothing, you'll find yourself broke and frustrated forever.

Commit though, and your life could be whatever you dream in the next 12 months.

How do I know?

Because when I committed, my life changed in less than 12 months.

The chasing and the jumping got me nearly \$50,000 in debt and miserable.

But committing to learning and implementing real skills and tools for just one year has unlocked for me 20 years of my dream life and counting.

Learn from my mistakes and just commit now, and you'll get the "fast" results you seek.

4. **Use Our Amazing Lead Gen Opportunity (Optional)** - This is optional, but I will be doing a TON of training on how to use this FREE resource to generate leads in a way that makes you look like a star.

One of the main reasons I have failed in the past, and I have witnessed countless others fail is by trying to sell.

The fastest way to create sales online, is to actually focus on NOT selling, but serving your ideal audience.

When you lead with solving, they'll actually be lined up to happily buy whatever you have and it will be a win/win situation.

This incredible resource provides a ton of done for you free offers that solve major industry headaches and problems.

Build your list by helping and solving, and then people will want to partner with you in The Affiliate Institute even before you ask them!

If you are my direct partner, [you can access the "Invisible Selling" System we use here.](#)

It's called The Internet Income System.

It's 100% FREE and optional, but it will help you generate endless leads that love you.

Plus has an entire archive of the best online marketing training you'll find anywhere in the world... ALL for FREE!

Treat this business as YOUR business!

As an affiliate, it's easy to just think we are a promoter of a link. But, the more you take responsibility for this being YOUR business, the more success you'll have.

Act as if you own the company.

How would you act? How much excitement would you have? How much work would you put into building it?

Taking ownership is one of the fastest paths to success.

That's enough for now Freedom Builder.

The goal is not to overwhelm, but to take the simple steps in front of you on a daily basis.

Go through the 7 steps above, and stay plugged into the alerts in the Telegram group, as well as, in your Affiliate Institute back office.

There is so much more to come for you, and I am insanely excited to unlock for you the Super Affiliate that's hiding inside!

Your Freedom is Waiting... Let's Go Build it!
