

The Oxford Handbook of AI Governance, Table of Contents

Introduction to The Oxford Handbook of AI Governance

Justin B. Bullock, Distinguished Scholar, University of Washington

Yu-Che Chen, Isaacson Professor, University of Nebraska at Omaha

Johannes Himmelreich, Assistant Professor, Syracuse University

Valerie M. Hudson, University Distinguished Professor, Texas A&M University

Anton Korinek, Professor, University of Virginia

Matthew M. Young, Assistant Professor of Public Administration, Leiden University

Baobao Zhang, Assistant Professor of Political Science, Syracuse University

I. Section 1: Introduction and Overview

Justin B. Bullock, Distinguished Scholar, University of Washington

1.1 AI Governance: Overview and Theoretical Lenses

Allan Dafoe, Senior Staff Research Scientist and Head of Long-term Strategy and Governance, DeepMind; President, Centre for the Governance of AI

1.2 AI Challenges for Society and Ethics

Jess Whittlestone, Leverhulme Centre for the Future of Intelligence, University of Cambridge; Centre for the Study of Existential Risk, University of Cambridge

Sam Clarke, Leverhulme Centre for the Future of Intelligence, University of Cambridge

1.3 Aligned with Whom? Direct and Social Goals for AI Systems

Anton Korinek, Professor, University of Virginia; Rubenstein Fellow, Brookings Institution; Economics of AI Lead, Centre for the Governance of AI

Avital Balwit, Research Scholar, Future of Humanity Institute, Oxford University

1.4 The Impact of Artificial Intelligence: A Historical Perspective

Ben Garfinkel, Research Fellow, Future of Humanity Institute, University of Oxford; Acting Director, Centre for the Governance of AI

1.5 AI Governance Multi-stakeholder Convening

Gretchen Greene, Fellow, Harvard Kennedy School; Senior Advisor, The Hastings Center Senior

II. Section 2: Value Foundations of AI Governance

Johannes Himmelreich, Assistant Professor, Syracuse University

2.1 Fairness

Kate Vredenburg, Department of Philosophy, Logic, and Scientific Methods, the London School of Economics

2.2 Governing Privacy

Carissa Veliz, Associate Professor at the Institute for AI, University of Oxford

2.3 The Concept of Accountability in AI Ethics and Governance

Theodore M. Lechterman, Research Fellow, Institute for Ethics in AI, University of Oxford

2.4 Governance via Explainability

David Danks, Professor of Data Science & Philosophy, University of California, San Diego

2.5 Power and AI: Nature and Justification

Seth Lazar, Professor, Australia National University

2.6 AI and Structural Injustice: Foundations for Equity, Values, and Responsibility

Johannes Himmelreich, Assistant Professor, Syracuse University

Désirée Lim, Assistant Professor, Penn State

2.7 Beyond Justice: Artificial Intelligence and The Value of Community

Juri Viehoff, MANCEPT, University of Manchester

III. Section 3: Developing an AI Governance Regulatory Ecosystem

Valerie M. Hudson, University Distinguished Professor, Texas A&M University

3.1 Transnational digital governance and its impact on artificial intelligence (AI)

Mark Dempsey, Executive MPA Graduate 2021, Hertie School, Berlin, Germany

Keegan McBride, Postdoctoral Researcher, Hertie School, Berlin, Germany and
Mohammed Bin Rashid School of Government, Dubai, UAE

Meeri Haatajam, CEO & Co-Founder, Saidot, Helsinki, Finland

Joanna J. Bryson, Professor of Ethics and Technology, Centre for Digital
Governance, Hertie School, Berlin, Germany

3.2 Standing Up a Regulatory Ecosystem for Governing AI Decision Making: Principles and Components

Valerie M. Hudson, University Distinguished Professor, Texas A&M University

3.3 Legal Elements of an AI Regulatory Permit Program

Brian Wm. Higgins, Blank Rome LLP

3.4 AI Loyalty by Design: A Framework for Governance of AI

Anthony Aguirre, Future of Life Institute; University of California at Santa Cruz

Peter B. Reiner, Department of Psychiatry, University of British Columbia

Harry Surden, University of Colorado Law School, University of Colorado at
Boulder, Boulder, CO

Gaia Dempsey, Metaculus, Santa Monica, CA

3.5 Information Markets and AI Development

Jack Clark, Anthropic, AI Index

3.6 Aligning AI Regulation to Sociotechnical Change

Matthijs M. Maas, Postdoctoral Research Associate, Centre for the Study of
Existential Risk, University of Cambridge.

College Research Associate, King's College, University of Cambridge.

IV. Section 4: Frameworks and Approaches for AI Governance

Yu-Che Chen, Isaacson Professor, University of Nebraska at Omaha, and
Matthew M. Young, Assistant Professor of Public Administration, Leiden University

4.1 The Challenge of AI Governance for Public Organizations

Justin B. Bullock, Distinguished Scholar, University of Washington
Hsini Huang, Associate Professor, Graduate Institute of Public Affairs and
Department of Political Science, National Taiwan University
Kyoung-Cheol Kim, PhD Student, Department of Public Administration and
Policy, School of Public and International Affairs, University of Georgia
Matthew M. Young, Assistant Professor of Public Administration, Faculty of
Governance and Global Affairs, Leiden University

4.2 An Ecosystem Framework of AI Governance

Bernd W. Wirtz, German University of Administrative Sciences Speyer
Paul Langer, German University of Administrative Sciences Speyer
Jan C. Weyerer, German University of Administrative Sciences Speyer

4.3 Governing AI Systems for Public Values: Design Principles and a Process Framework

Yu-Che Chen, University of Nebraska at Omaha
Michael Ahn, University of Massachusetts- Boston

4.4 System Safety and Artificial Intelligence

Dr.ir. R.I.J. (Roel) Dobbe at Delft University of Technology

V. Section 5: Assessment and Implementation of AI Governance

Matthew M. Young, Assistant Professor of Public Administration, Leiden University, and
Yu-Che Chen, Isaacson Professor, University of Nebraska at Omaha

5.1 Assessing AI-Automated Administration

Cary Coglianese, University of Pennsylvania
Alicia Lai, University of Pennsylvania

5.2 Transparency's Role in AI Governance

Alex Ingrams, Leiden University
Bram Klievink, Leiden University

5.3 The Anatomy of AI Audits: Form, Process, and Consequences

Inioluwa Deborah Raji, Mozilla Fellow & UC Berkeley

5.4 Mitigating algorithmic biases through incentive-based rating systems

Nicol Turner Lee, Senior Fellow, Center for Technology Innovation, the
Brookings Institution

5.5 Role and Governance of Artificial Intelligence in the Public Policy Cycle

David Valle-Cruz, Autonomous University of the State of Mexico
Rodrigo Sandoval-Almazán, Autonomous University of the State of Mexico

VI. Section 6: AI Governance from the ground up (views from the public, impacted communities, activists within the tech community)

Baobao Zhang, Assistant Professor of Political Science, Maxwell School of Citizenship and Public Affairs, Syracuse University

6.1 Public Opinion Toward Artificial Intelligence

Baobao Zhang, Assistant Professor of Political Science, Maxwell School of Citizenship and Public Affairs, Syracuse University

6.2 Adding Complexity to Advance AI Organizational Governance Models

Jasmine McNealy, Associate professor in the Department of Telecommunication, in the College of Journalism and Communications at the University of Florida

6.3 The Role of Workers in AI Ethics and Governance

Nataliya Nedzhvetskaya, Ph.D, University of California, Berkeley; Fellow in Digital Ethics & Governance at the Jain Family Institute
JS Tan, Research Assistant, MIT Media Lab

6.4 Structured Access: An Emerging Paradigm for Safe AI Deployment

Toby Shevlane, DPhil student, Centre for Socio Legal Studies, University of Oxford

6.5 AI, Complexity, and Regulation

Laurin Weissinger, Lecturer, Fletcher School of Law and Diplomacy, Tufts University

VII. Section 7: Economic Dimensions of AI Governance

Anton Korinek, Professor, University of Virginia; Rubenstein Fellow, Brookings Institution; Economics of AI Lead, Centre for the Governance of AI

7.1 Technological Unemployment

Daniel Susskind, Fellow in Economics at Balliol College, University of Oxford.

7.2 Harms of AI

Daron Acemoglu, Institute Professor, MIT

7.3 AI and The Economic and Informational Foundations of Democracy

Carles Boix, Robert Garrett Professor of Politics and Public Affairs, Princeton University

7.4 Governing AI to Advance Shared Prosperity

Katya Klinova, Partnership on AI

7.5 Preparing for the (Non-Existent?) Future of Work

Anton Korinek, Professor, University of Virginia; Rubenstein Fellow, Brookings Institution; Economics of AI Lead, Centre for the Governance of AI

Megan Juelfs, Associate Director, Research Initiatives, Institute for Business in Society

VIII. Section 8: Domestic policy applications of AI

Johannes Himmelreich, Assistant Professor, Syracuse University

8.1 Artificial Intelligence for Adjudication: The Social Security Administration and AI Governance

Kurt Glaze, Social Security Administration

Daniel Ho, Stanford University

Gerald Ray, Social Security Administration (Ret.)

Christine Tsang, Stanford University

8.2 Watching the Watchtower: A Surveillance AI Analysis and Framework

Stephen Caines, Stanford Law

8.3 Smart City Technologies:

A Political Economy Introduction to their governance challenges

Beatriz Botero Arcila, Sciences Po, School of Law

Berkman Klein Center for Internet & Society at Harvard University

8.4 Artificial Intelligence in Health Care

Nakul Aggarwal, University of Wisconsin, Madison

Michael Matheny, Vanderbilt

Carmel Shachar, Harvard Law

Samantha Wang, Stanford University

Sonoo Thadaney-Israni, Stanford University

8.5 AI, Fintech and the Evolving Regulation of Consumer Financial Privacy

Nikita Aggarwal, Fellow, Carr Center for Human Rights Policy, Harvard Kennedy School; PhD candidate, Faculty of Law, University of Oxford

IX. Section 9: International Politics & AI Governance

Justin B. Bullock, Distinguished Scholar, University of Washington

9.1 Dueling Perspectives in AI and U.S.-China Relations:

Technonationalism vs. Technoglobalism

Jeffrey Ding, Postdoctoral fellow at Stanford Center for International Security and Cooperation

9.2 Mapping State Participation in Military AI Governance Discussions

Elsa B. Kania, PhD Candidate, Department of Government, Harvard University

Justin K. Canfil, Postdoctoral Fellow, Harvard Belfer Center for Science and International Affairs; Columbia-Harvard China and the World Program; Tufts Fletcher School of Law and Diplomacy

9.3 AI, the International Balance of Power, and National Security Strategy

Michael Horowitz, Professor, University of Pennsylvania

Shira Pindyck, Post Doctoral Fellow, University of California Institute on Global Conflict and Cooperation

Casey Mahoney, PhD Candidate, University of Pennsylvania

9.4 The ghost of AI governance past, present and future: AI governance in the European Union

Charlotte Stix, Coordinator for the European Commission's High-Level Expert Group on Artificial Intelligence, PhD Student, Eindhoven University of Technology

9.5 AI and International Politics

Sarah Kreps, Nonresident Senior Fellow, Brookings; John L. Wetherill Professor, Cornell University

Amelia Arsenault, Doctoral Student, Cornell University

9.6 The Critical Roles of Global South Stakeholders in AI Governance

Marie-Therese Png, Oxford Internet Institute, DeepMind Scholar, Founder at Implikit

9.7 NATO's Role in Responsible AI Governance in Military Affairs

Zoe Stanley-Lockman, Associate Research Fellow in the Military Transformations Programme at the Institute of Defence and Strategic Studies at the S. Rajaratnam School of International Studies

Lena Trabucco, PhD Student, Northwestern University; PhD at the University of Copenhagen
