

# **“The File”**

***Script For Thursday, 11/28/2019***

*A*

*Movie*

**S1: Jerry**

**S2: Matthew**

**S3: Victoria**

***This is a discussion between the three after they went out from the principal's room. The setting in this part of the film is S2's house.***

**S1: Is it really that important that we need to go to your house to talk about this?**

**S2: Of course! This is a meaningful and special mission for us!**

**S1: Ok, well, any ideas about how we are going to do this?**

**S3: I think the only way to find the USB drive is to go into A's house and get it.**

**S2: Hang on a second, are we really going into his house? That's soooo exciting! (look at S1 and S3)**

**(Awkward pause for 3 seconds)**

**S3: Right, but first we need to know where his house is.**

**S1: Should we follow him after school?**

**S2:** No, there's an easier way, we can just put a tracker on him and it will give us the location of his house.

**S3:** That works. Does it cost a lot of money though?

**S2:** Oh no worries, I have a lot of these at my home.

**S1:** Why would you have a lot of trackers in your home? What do you do with them?

**S2:** Nothing.

**S1 & S2 & S3:** continue nodding their heads (with some kind of smile).

**S2:** Yeh.....

**S3:** Ok, and we also need to make sure that no one is in the house while we go there so that it will be more convenient for us to get the usb.

**S2:** According to one of his friends, he has a SAT class on Friday, so it is a perfect time for us to go.

**S3:** Great!

**S1:** Alright, so, Matthew, tomorrow you will put the tracker on Thomas and on Friday we will go to his house. And then, while

we are in the house, Victoria will be the monitor for us. She will tell us about what happens inside and outside of the building so that we can go out easily if anything happens. And most importantly, she is going to tell us the location of Thomas while we are taking the usb and guide us to the exit if anything happens. Alright?

**S2 & S3: Alright.**

**S2: OK, if the discussion is over, then I'm going to do my physics homework(grab the homework).**

**S1: Do you need any help with that?**

**S2: NO, I got an A in my last exam! (walks out and close the door)**

**S1: (sigh) Three, two, one---**

**S2: (Opens the door) Okay I guess I do need you guys to help.**

**S1: It's a complete new unit for you my friend!**
