

Scott Jansen - 3-Day Advanced Conversational Hypnotherapy Program

See Why 1000's Of Hypnotherapists Worldwide Are Ditching Traditional Hypnotherapy & Turning To Scott Jansen's Advanced Conversational Hypnosis (ACH) Program **That Drastically 'Speeds Up Results' For Their Clients**

WHAT IS IT?

Scott Jansen here...

ACH is my flagship conversational hypnosis program that focuses 100% on the therapy aspect of being a hypnotherapist – **NOT the hypnosis part** – as more than likely you already know this and seen the flaws in it. (No breakthroughs)

Firstly, let me tell you **this is not about scripts, learning language patterns, using a pendulum, using meta models that makes your language sound crazy and obvious**, mastering exhausting regressions and visualisations, rapid inductions or floating above Timelines – or any of the traditional hypnotherapy you can read from a text book.

I designed it in the real world (after more than 10 years as a hypnotherapist helping 1000s of Lawyers quit smoking) to help hypnotherapists, coaches, NLPs, and healers who are sick of using scripts, learning clunky language patterns, using exhausting regressions, using visualisations when your client can not visualise, spending hours preparing sessions, creating audios and homework, and having to see clients multiple times – **with NO obvious breakthrough**.

In case you don't know, "ACH" is probably the number one skill you can have a hypnotherapist, coach, NLP or healer who is really serious about speeding up breakthroughs with clients – **and charging a premium price**.

Because **if you can't** speed up your sessions, it doesn't matter how good your product or service is...or how BIG your goals are to grow your therapy business... your business and income will always stay stuck, and you will be competing with the 100 of thousands of other hypnotherapists, coaches and NLPs all offering the same thing at the same price – Talk about cutthroat!

But, learn to speed up your breakthroughs with ACH, set the right price, show the right value (even when your **prices are 10-20X higher** than the average therapist)... and ... with just a few clients a week or month... you can transform your business, your life, and the life of the people you care about forever, all while becoming that 'go-to therapist' who charges the most but is in the most demand!

It's crazy to think that the **1000s of students** we have are spending between **only 30 min-60 min with their clients** – just once and charging these massive prices – all while building waiting lists months in advanced, while the rest of the hypnosis industry are working part time jobs to support their income and charge on average \$100-150 per client.

And I am not just saying this... ***check out all the results below for yourself!***

That's why 1000s of students and trainers have already gone through the program and have become the 'go to therapists' in their niche – all while using just this ONE approach. Forget about adding tools to your toolbox! **We create the toolbox – not the tools in it.**

If you are not familiar with our ACH program, maybe you have seen the 1000s of hypnotherapists, we have helped build a fulltime income from scratch and build their dream hypnotherapy business with **our 100K Coaching Program.**

Let me introduce you to a couple of the thousands of Hypnotherapists, Coaches, NLPs and healers whoes therapy approach and income has changed drastically, their time with clients has been cut in half, their referral numbers have grown, and they are doing less work with clients!

These same students have gone from working full-time jobs, struggling to get clients and grow their businesses to working as fulltime hypnotherapists, buying their dream homes and vacation homes, taking their families on vacations a few times a year, working from anywhere in the world – to even hiring staff to help with their growing client numbers.

HOW IS THIS DIFFERENT?

The reason my ACH program gets such great results from these hypnotherapists like you, is because... **it's different from almost every other training program you've ever taken.**

That's because, unlike most hypnosis courses you've invested in where your **reading scripts and reading from a txt book full of outdated and untested ideas...**

IT DOESN'T MATTER IF YOU HAVE JUST BEEN QUALIFIED OR HAVE BEEN PRACTISING FOR YEARS – ACH BREAKS THE MOLD OF TRADITIONAL HYPNOTHERAPY

1. You'll learn how to use ACH confidently within just a few hours of training without having to ever write, prepare or buy a script. You will see and experience ACH in action and learn how to use principles of therapy. No time is spent hypnotising clients, deepening clients, using suggestibility tests, pretalks, post

hypnotic suggestions etc – **These things are time wasters once you understand ACH.**

2.You'll discover how easy therapy can be used to create a desired breakthrough without having to force your clients through ridged techniques. And best of all this one ACH approach can be used no matter what a clients problem is.

3.You'll breakthrough your own barriers and doubts to become such a confident therapist you will be excited to help clients without the fear of not knowing what to do, say or if the session has worked.

4.You'll develop your own style of ACH that will help differentiate you in a very saturated industry, charge the highest prices in your niche and become the go-to expert (I have seen this happen 1000s of times with our students)

5.You'll almost immediately start creating therapeutic breakthroughs with just a few minutes of chatting with clients and you will have the **end-to-end strategy** to follow so you will know what to do and say each step along the way.

6.You'll gain complete control over your clients breakthroughs and drastically speed up results while charging the most – YES you will be working less, doing less as the therapist, saving time and making more money.

7.You'll start seeing REAL therapeutic breakthroughs that will leave your clients stunned and ready to tell the world about you.

8.You'll become so confident you'll start to feel unstoppable and actually seek out more clients to help them change your life – **all without** using scripts, ridged techniques, relaxation, or language patterns ever again.

...Plus much more
