Abstract

An abstract consists of a short description of the problems and goals of research, the method that is used, along with the results of the research. Abstracts are to be written with a maximum of 250 words, and must be clear and descriptive. Abstracts must be written in both the Indonesian and English languages. The format of the abstract is to be typed with the font Times New Roman, 12 Font size, and spacing 1,0. Key words must be written to describe the scope of the problem that is being researched, along with important terms from the research. Key words can take the form of singular words or compound words.

Keywords: *Format, Journal, Research.*

INTRODUCTION

Written with Times New Roman, Font size 12, spaced 1.15. The article was written using A4 paper. Format the left margin 2,54 cm, top 2,54 cm, right 2,54 cm, and bottom 2,54 cm. This paper describes the problems that occur and can be scientifically proven or can be investigated by methodological, hermeneutic, exegesis approaches. In this introduction, a thesis will be explained which will be described or examined to answer issues, and issues are surrounding theology, Christian and pastoral education which can be interpreted in an argumentative and quantitative, qualitative and other measurable data analysis.

THEORY

Review of the latest theories and research results/journals to support the author's thesis with Grounded Theory and literature in the last five years.

METHOD

The method of study/research to measure it (if it is analytical) and if it is argumentative must be supported by an expert view or primary source to support the author's argument. The method must be systematic, valid, and there are appropriate reference references.

RESULT AND DISCUSSION

The contents section explains the purpose for which the article was written. Each section title must be written in bold and sub-sections must be in italics and bold. Articles for journals are the results of research, critical analysis studies in the fields of theology, Christian Religious Education, scriptural expositions, pastoral studies in churches, Christian schools, and Christian Colleges. This section can add tables, drawings, or statistical calculations to explain the results of research or research study arguments.

RECOMMENDATIONS ON RESEARCH AND DEVELOPMENT

In this section, the researcher is asked to explain the benefits of the research, request that this research be used as reference material, and make recommendations for research development from researchers that have been made.

CONCLUSION

Closing or conclusions are the results of the research and argumentation of the author to answer the problem as the author's goal.

BIODATA

Biodata contains photos, study history, research focus, and contributions to society or country.

REFERENCES

Books and journals are required in the last five years at least five references.

Cited and Bodynote

The citation is more than four lines typed with a single space, and it gave a new line with font size 11. Citations consisting of four lines or less than four lines are written as the connection of the previous sentence using quotation marks.

The footnotes using the *American Psychological Association 7th Edition (APA)* standard. Examples of references are as follows.
