Proposal Title - YYYY-QX

Authors: separated by commas

View the discussion from the last stage of the proposal here. (provide a link)

Summary

A simple description of the proposal's result and desired changes. It should be no more than a few sentences.

Motivation

Explain why this proposal is necessary or valuable for the community in general. How is it adding value, and what problem or opportunity does this proposal target?

Scope of Work

Domain of Operations & Team

Sub-DAOs should clearly state the main “domains” of work they will cover on behalf of the DAO. Sub-DAOs should indicate how their experience makes them suitable for specific domains or domains.

Examples of domains include (but are not limited to) the following: Events, Jobs, DevRel, and Consulting. Whilst some overlap might occur across Sub-DAOs, we don't recommend overlapping too much since work can become redundant in those cases. In some instances, it might make sense to have overlapping Sub-DAOs. A potential example might be D_D Merch shops focused on different areas worldwide.

Please clearly state who will be contributing, including DAO Membership status, relevant experience in and outside of the DAO, and their role on the project.

OKRs

Sub-DAOs must demonstrate their OKRs in their funding proposal, including how they will help the DAO achieve its [higher-level OKRs](#). This is to keep the DAO “on mission”, not restrict value creation for the DAO via bureaucracy. As such, whilst the proposal authors are encouraged to share details of their plans, they should intentionally leave flexibility to innovate and adapt to achieve their aims.

Finally, an overview of how requested funds will be spent to help achieve their OKRs must be included in the Proposal. If a Sub-DAO requires additional funds before the end of the funding period, a request can be made directly to the Stewards.

	VIBE	
O1	Foster a fun and safe Member experience	Owner
KR		

	LEARN	
O2	Provide DAO members with high-quality learning opportunities	Owner
KR		

	BUILD	
O3	Support DAO members to elevate their impact on the world	Owner
KR		

	GOVERN	
O4	Position the DAO structurally and financially for long-term success	Owner
KR		

Budget Request (Including value returned to the DAO)

Please clearly state the Budget you are requesting from the treasury. Requests can be made for any assets from the Treasury, and Stewards will review them.

\$CODE rewards are calculated using a 15 \$ CODE/hour rate. If you are generating revenue, please clearly state how you return value to the DAO Treasury.

Drawbacks

Optional section if drawbacks should be identified.
