World's Largest Lesson website has tons of resources!

Peggy George

I love that Sharon is doing this with such young kids! That's the time to start!
kids have such great compassion for others and this perspective is so important!

Cathy B

And I love having it simplified so that everyone can really understand it, and know that we can all engage in trying to meet them - regardless of age.

Peggy George

This video is also in our Livebinder. I'm so glad Sharon created this!

Rosie

Thank you Peggy

Peggy George

I love that video! Really captures the spirit and message!

<http://www.livebinders.com/play/play?id=2390315>

Peggy George

that is a great open-ended question to kick off the conversation!! What do you do when...?

Peggy George

what a great way to explain it! goals are like a blanket to wrap around the world!!!

@plnaugle (Paula)

Like the blanket analogy.

Peggy George

<https://kindergartenlife.wordpress.com/> (Kindergarten Life Blog)

<http://davisonkindergarten.blogspot.com/> (Mrs. Davison's Kindergarten class blog)

these are all ideas the kids can relate to!!

Peggy George

that reminds me a lot of the You Matter Manifesto from Angela Maiers!

<https://www.angelamaiers.com/blog/you-matter-manifesto.html>

Peggy George

would love the link to the Continent Song!

Peggy George

Angela did a keynote presentation for the K12 Online Conference several years about about the "Sandbox Manifesto". Awesome! Rules of the sandbox are for everyone!

<http://k12onlineconference.org/2011/11/21/2011-preconference-keynotethe-sandbox-manifesto/>

what fun!!! Global Goals glasses!

@plnaugle (Paula)

Here is a continent song I used with my students -

https://www.youtube.com/watch?v=Xy7e_KAUz7s

Peggy George

kids are learning about maps and locations around the world in Kindergarten! Hooray!

Cathy B

These are wonderful resources! Thanks very much for sharing them. (-:

@plnaugle (Paula)

My school district has a very diverse population. We have students from over 50 different countries.

Peggy George

those starters really encourage conversations!

Peggy George

the one who is doing the talking is doing the learning! Kids should be talking lots more than the teachers!

Hi Glenn! Welcome!!

Glenn Hervieux @sisqitman

Thank you, Peggy! It's been quite awhile :)

Peggy George

love these 5 C's!!!

that is such an authentic way for them to learn! directly relates to their lives!

@bcdtech Maureen

We got a water bottle refill station at school last spring- great way to cut down on plastic waste.

Peggy George

love that idea Maureen!!

@plnaugle (Paula)

This week one of my 5th graders was upset because our school doesn't have a recycling program, so I asked him to think about how we could start one. He said he would work on a plan this weekend.

Peggy George

living the curriculum!! not just hearing about it!

Sharon created this awesome Padlet! <https://padlet.com/sdavison/ivku5r5mx68t> (Padlet: Ideas for Creating a Global Culture for Learning)

Glenn Hervieux @sisqitman

Maybe schools could begin to have more of this culture in classrooms vs. the emphasis around most of the curriculum/culture around students test scores

Peggy George

great point Glenn!!! so many learning standards can be addressed with the Global Goals!

Global Goals Book List:

@bcdtech Maureen

I met the mayor of Montpelier VT this summer at a conference- Sharon should connect with her to get more HS kids on board- Anne Watson teaches physics I think- as well as being mayor.

Peggy George

<http://worldslargestlesson.globalgoals.org/> (World's Largest Lesson: Global Goals. Starts September 24, 2018)

That's a great idea Maureen!

Glenn Hervieux @sisqitman

Yes.....always about the learning!

Peggy George

Flipgrid would also be a great tool to add to that list! Kids can record their thoughts and share them any time!

Glenn Hervieux @sisqitman

Great idea, Peggy! So easy to use, as well.

Peggy George

Peggy George

that would be an awesome project to join!

if you have any questions for Sharon please type them here in the chat and Lorie will ask her on the mic.

@bcdtech Maureen

We always start off with Lisa Parisi's Peace Video project... she is doing it one "last" time this year.

Peggy George

what a perfect slide!!! Love the THINK acronym!

@bcdtech Maureen

Wow!

Peggy George

Maureen, please share that link!!! Would love to add it to our Livebinder!

would anyone like to take the mic to share or ask a question?

Glenn Hervieux @sisqitman

Amazing presentation - so much to take in, but so many entry points to get started.

KimT AZ

Simply amazing!

Doug Henry (San Leandro, CA)

Great ideas for all grades

Peggy George

Sharon, can you tell us more about becoming an Ambassador?

Cathy B

So important right now...

Patti Ruffing

we are running out of time for the climate issue

Glenn Hervieux @sisqitman

Where would you encourage us to start - obviously you've had time to build a complete program in your classroom.

Cathy B

And so important to help kids feel like they can DO something about the problems in the world..
We will need them to feel the own power.

Tiziana Angiolini ITALY

Thanks for the great tips and compliments for your children's involvement. I am sure we can make a better world if we start working about global issues with kids

Peggy George

anyone brave enough to take the mic?

we love hearing your voices!

Hooray for Maureen!!!

Peggy George

Would love to have you share the link to your Milennial Goals project Maureen!

Peggy George

Hi Rebecca. Thanks for joining us! We're just wrapping up but the recording will be available. So sad we lost our wikispaces!!!

Glenn Hervieux @sisqitman

At our jr. high school, we had some students picking different real world problems and built a collaborative website sharing some of their learning. I'm going to share some of this with the teacher and we can take it to the next level.

Eileen K
