
Hope Reins Healing, Inc.

March 24, 2022

We wanted to write a testimonial to share our amazing experience joining forces with SULS. They reached out to our Non-Profit, Hope Reins Healing, Inc and asked if they could support our new equine therapy business so that we could provide more services to those in the community struggling with mental health issues, especially with the current Covid crisis which had created additional stressors for everyone in the community in some way.

I met SULS member, Jackie Goode a few years ago while co-facilitating a retreat and she mentioned our company to the SULS team. Wendy took the bull by the horns and we all sat down at the ranch to start brainstorming. Little did we know Wendy had already done a lot of the initial leg work. Jackie's heart to support combined with Wendys Get down to business attitude was incredible, not to mention all the other women who contributed countless hours, ideas, manual labor and really anything else that was needed.

The event turned out to be absolutely amazing which included food trucks, live music, amazing raffle prizes and auction items. It was truly a Party in the Pasture and we will never forget the amazing dedication this team had when it came to supporting a small new company, run by two country girls who had a dream and a lot of HOPE. The outcome was absolutely amazing and it had been their most successful fundraiser to date.

It was truly an honor to be a part of such an amazing group of women whose hearts are made of pure gold. I have never in my life seen someone so on the ball as Wendy Moore. Her drive and tenacity is unmatched. Her sweet mom, Lois, was alongside Wendy cranking out baskets and she made them absolutely beautiful.

We are forever grateful for SULS and the impact they had not only on our lives but the lives of so many others. Thank you so very much!!

With Gratitude,

Aubree Sullivan, LCSW & Angie Smith, Equine Specialist
