4. Topics of the day

- Heat Service in FIWARE Lab:

An email sent by Josè to the maillist describes the current issue with Liberty. Any suggestions are welcomed;

- Volos is going to leave FIWARE Lab;

From previous meetings:

- NEW way of working on Agile/Sprints activities as from the email sent yesterday by Fernando!;

- Comments on the Berlin's review;
- Federico could not join for the log inspection tool;
- Monasca is back! Please check the availability of the service on your node at the following URL:
http://130.206.84.4:11027/monitoring/regions/<region_id>
- The Deliverable D4.3 and D4.7 will be merged in one single Deliverable. Both of them are about FIWARE Lab assessment, SLA and Nodes performance;
- A new tool to gather logs from FIWARE Lab Nodes has been developed by the Martel team. The documentation to configure both the agent and the syslog is available at the following link: <http://deep-log-inspection.readthedocs.io/en/latest/install/monasca-log-agent/>

For any technical doubt about that procedure please contact:
federico.facca@martel-innovate.com

5. FIWARE Lab Sustainability Model

Stefano's working on the final version of the FIWARE Lab sustainability model.

Here the shared doc used to collect contributions from everybody:
