

POWER BI PROJECT VIDEO COURSE – 20 UNIQUE PROJECTS ACROSS MULTIPLE DOMAINS

By Swapnjeet S | 45+ Hours of Start-to-End Video Training

Master Power BI with 20 Real Industry Projects (Beginner to Advanced)

Step into the world of real-world data analytics with **20 highly practical, domain-specific Power BI projects**, designed to transform absolute beginners into job-ready professionals.

This course provides **complete end-to-end analysis**, from **raw data** → **data modeling** → **DAX** → **visuals** → **storytelling** → **insights** — exactly how it's done in top companies.

Whether you want to **build your portfolio, prepare for interviews, upgrade your job skills, or switch careers**, this package gives you everything you need to level up.

What You Will Learn

- Every project helps you master core Power BI skills:
- Data Modeling (Star Schema + Relationship Design)
- Data Cleaning & Transformation (Power Query)
- DAX Concepts (Basic → Advanced)
- KPI-driven Dashboards
- Advanced & Custom Visuals
- Dynamic Filtering & Interactivity
- Lay outing, UI/UX & Theme Designing
- Real-World Insight Generation & Storytelling

Each project is crafted to build industry experience, not just theoretical skills.

Projects Included (20 Highly Practical Use Cases)

1. Bank Loan Analysis (Finance)
2. Amazon Sales Dashboard (E-Commerce)
3. Call Center Analytics (Operations/Marketing)
4. Adidas Sales Performance (Retail & Marketing)
5. Car Sales Dashboard (Automotive)
6. Electric Vehicle Insights (EV / Manufacturing)
7. HR Analytics Dashboard (Human Resources)
8. Pizza Sales Dashboard (Food & Service)

9. Ecommerce Sales Analysis (Supply Chain)
10. IPL Analysis (Sports Analytics)
