REP. SELDOM237 (R-DX-1) SPEAKS ON THE UPCOMING ELECTION IN DEL RIO, DIXIE

At the United States-Mexico Border, Rep. Seldom237 makes the case for a strong and compassionate border policy.

Across the Southern State, viewers turned on their televisions to see the House Minority Leader, Seldom237 of Dixie, visiting the border town of Del Rio. The Dixie Republican Party has been making a strong case for the upcoming federal election, and the border has remained a continuous issue for many Dixians. It's an issue the Dixie Republican Party wants to capitalize on in face of the inactivity on the border from the DXDems, especially their Governor. With that in mind, the campaign team of Seldom237, accompanied by staff from GOPVote and the American Liberties and Families Union, has picked the Texas border city to talk about the serious issues facing the Southern

State at this time. With a large stage and an even bigger crowd turned out for the event, Seldom mounted the stage to a round of applause. With the border less than a mile from the event, the seriousness of the event wasn't lost on anyone, least of all the DX-1 Rep. With a microphone in Seldom's hand, the event began promptly.

**Seldom237:** Thank you! Thank you all very much for coming out here today. I know it's hot so I'll keep things brief. Dixie, I will not lie to you. Our state is in paralysis. Our state government has been shut down by a Governor who refuses to take action, on the border, on the economy, anything. Our border, which must be protected, and the immigrants, legal and illegal, that cross it. All aspects of this problem are ones our state government must address. If they do not, then the problems multiply. The problems become worse. It's time we do something about that.

Dixie, we have a chance in these upcoming federal elections to make a real change. To send a real signal, that the days of Democratic inaction are coming to an end. That the Republican Party is ready to take charge, to take action, if they are unwilling or unable to. In the halls of Congress, the Senate and the House, the people who believe in border security, free market economics, and a patriotic vision for the nation will make America greater than it ever was. This is a wonderful opportunity, where the House is on the brink of being able to support a Republican trifecta of government. Think of that for a moment. We get the opportunity to vote for a Republican President, Senator, and Representative. This opportunity is massive, each one of the scales in national power is tipping back towards prosperity, freedom, and faith. We have a chance, a real chance, to make positive change for this nation. Change that not even the Democrat's talents for obstructionism could prevent. Can you imagine that? With a trifecta in government, we could finally make more progress than ever before. All of our priorities, border policy, education reform, national defense, everything. We would be able to do real good for this nation, good we couldn't do otherwise. But to do that, to make these changes, we need your help. More specifically, we need two things. I won't pretend or try to cover this up. We need your vote, obviously, and your donations. This fight will be a tough one, and we can't spare any front. All issues must be challenged, all candidates given whatever tools they need to succeed. We'll be running a nationwide campaign apparatus, and the Republican Party needs your help to emerge as the ruling party in a unified government.

I know this state, Dixie is my home, it always has been. It is for this state that I've been going to Washington. It was the honor of a lifetime to serve as Vice President, and even more so to receive this state's support in that critical election. Without that victory, none of this would've been possible. For the last two Presidential elections, Dixie has

been the decided vote. Both President Adith and President Ninjja won the presidency in Dixie. If it comes down to Dixie again, and I believe it may, we must return the same verdict we have before. That we will not support a President who will turn their back on liberty, tradition, and values. That we will not vote for someone wanted to be President who will hijack our economy and turn it into the slave of socialism. That we will not support someone for President who will turn the Arsenal of Democracy into a second class force, incapable of fighting the battles we need to fight. I believe in the upcoming Presidential election, along with the Senate and the House elections, Dixie will render the final decision, and it will be to swear in a Republican House, a Republican Senate, and the second term of a Republican President!

*The crowd roared their approval, rising to their feet and clapping their hands. There was no mistaking their enthusiasm, this was their dream as well as the House Minority Leader's.*

**Seldom237:** It has come to my attention that, as of recently, the current Speaker of the House, Lily\_irl, has resigned her office. A hard worker and a former Republican, my respect for Speaker Lily knew no bounds. I was honored to work with her, whenever I got the chance. Now that she has resigned, I wish her the best in her retirement. Now the House of Representatives will vote on new leadership. The House will vote on a new Speaker, right in time for the election. No matter how this Speaker's election goes, it will likely not last. With these upcoming federal elections, the recaucus that follows will be the real deciding factor. Do we want to restore Republican leadership in the House? Do we want to see the Speaker of the House be a Republican for once? Do we want to see the Republican Speaker meet the Republican Senate Majority Leader? And supported by a Republican President Adith, do we want to make genuine conservative change for the nation? My friends, we don't have to wait much longer. It's time. It's time to win! Together, we will restore America to glory! To action rather than paralysis. To patriotism rather than self destruction. To the Constitution, not to the will of unelected bureaucrats. Together, we will win!

Thank you very much for your attendance, and I hope to see you all at the polls! God bless you all, God Bless America, and God Bless Dixie!

*The crowd jumped again, all rising to their feet. The House Minority Leader spent some time talking with the supporters, before quickly getting back into the secure vehicle. According to reports, the House Minority Leader returned to Washington DC.*
