

Heyyy, my formal introduction cause you seem sooooo interested (lol jk)
I go by ham sometimes tw : i am extremely cringe and i WILL judge you but dw i am understanding . i love nicknames so honestly if you call me something good and tailored to my personality i would be ABSOLUTELY in love with you Oh btw read this while listening to [somewhere only we know](#) by RHIANNE (not that male version)Also another important thing if you are a man STAY AWAY respectfully speaking ofc. i am also MESSYYY just warning you before you come too close, Also if you somehow get to know me too deeply, i am thora sa INSANE and HIGHKEY understanding me isnt everyones cup of tea UM YA so like dont try to come into my life if you have commitment issues.my entire personality depends on my whims and fancies, MOODY EH as they say . i get BORED easily but i truly never get bored EVA i love talking to myself TAD BIT WIERD but who am i truly without my weirdness it might get me in trouble later but yk whatever (thats my mantra to life WHATEVA)I LOVE PEOPLE with personality, and i love solving and finding missing pieces of puzzles i am obsessive clingy and ANYTHING but conventionally standard. i love music, art, philosophy, psychology, dogs , travelling, exploring and random spur of the moment plans and hangouts.I am a sucker for aspirational young and passionate people who make you feel perhaps there is still some hope and maybe life is not a complete meaningless void.there is always a reason for the stuff that i do ; i am well always 2 steps ahead of normal peps . i love the song emo boy by ayesha erotica , andrew in a drag , chappell roan , and mitski at the same DAMN time and how can we forget oversharing that reminds me i am doing it again.... so ig thats all for now stalker. hmu later ? <3 <3
