

Life Is Funny honestly, every time you think you succeed, you fall; the Biggest Successes have the hardest falls. Every time You fail, you dont lose, you learn, Ill be honest, no matter what happens to Us, to You, To earth, You will persevere, Suicide is Never the Solution Or A Better way to put it "Suicide is a permanent solution to a temporary problem" -Robin Williams. Understand Even when you fall, get up, even if you dont want to, do it to prove those people wrong, to prove yourself wrong, When you hurt, you lose, But when you lose, it almost always means you grow, never give up on anything you dream of, all it takes to achieve that dream, is hope, is determination, is failure, is pain, To loose is to win; to grow is to change, And Change Is Too hard for most, Understand, you can make that difference, you can be the one to change, all it takes, is a conscience choice. You will survive, No matter what, there will always be someone who cares about you, "To live without hope is to cease to live" – Fyodor Dostoevsky. Go on, live your Dreams, and rember I if noone else, cares about you

"The worst thing in life is not to end up all alone. The worst thing in life is to end up with people who make you feel alone."  
— Robin McLaurin Williams

(Note: i know its not worded the best but its 11 AM and this is the best i can do right Now)
