

# **1. Go Fish**

**Divide the cards evenly between your group. You need to match the correct fraction division problem with the model it represents. Your goal is to get the most matches in your group.**

## **2. Roundabout**

**Solve each division problem on the pieces. Connect the division problems with their correct answers. Your puzzle should form a complete circle when finished.**

### **3. Math Article**

**Read through the math article. Take notes on your recording sheet.**

**Make sure each section is filled out completely.**

## **4. Prodigy**

**Log into your  
chromebook and  
play prodigy over  
dividing fractions.**

## **5. Bingo**

**Play bingo at the back table. When the teacher calls out a problem, solve it using your expo marker and whiteboard.**

## **6. PolyProblems**

**Solve the division problems in each triangle. Match the correct answers with the problem it goes with. Fill out your recording sheet.**
