

Social Work Success Path – GSC

Errors Report

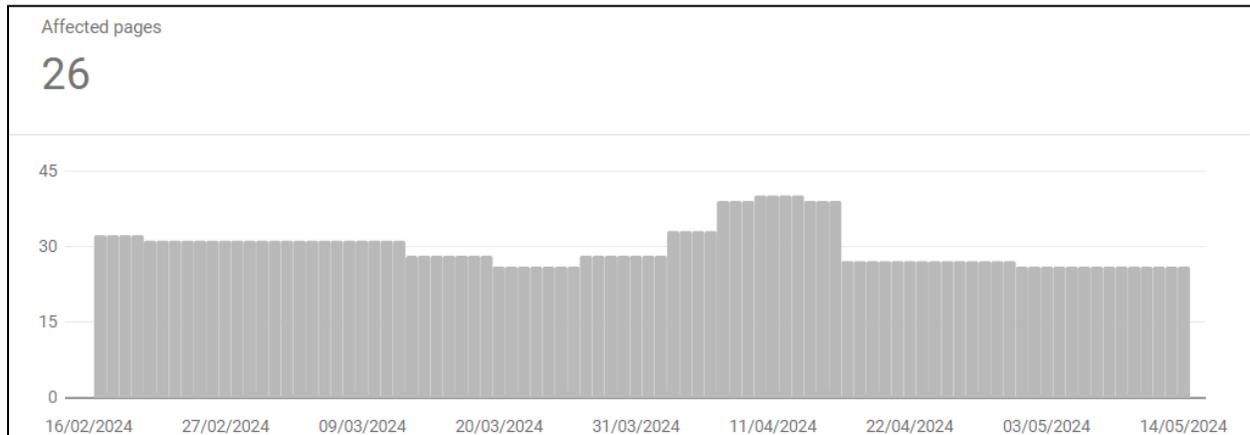

Hi,

Please find the detailed report on GSC errors.

IN A HURRY?

- Most URLs in GSC are feed or non-canonical pages that are not indexable. Such URLs don't contribute to your SEO growth, and you don't need to take any action.
- We have taken some necessary steps to nullify the wastage of the crawl budget.
- We found many pages with thin/insufficient content, preventing indexation.
- We noticed non-descriptive URLs like <https://socialworksuccesstpath.com/quit/>, which don't specify the page's scope. That's why Google does not consider them for indexing.
- You can track the page indexing here: [Indexable Pages - Tracker](#)

01. Excluded by 'noindex' Tag

URLs under this report are not indexable since we intentionally tell Google bots NOT to index these URLs.

As a reference,.

<https://socialworksuccesspath.com/10-types-of-social-work-jobs-and-salaries/feed/> This URL is generated from an RSS feed for search robots. The main page

<https://socialworksuccesspath.com/10-types-of-social-work-jobs-and-salaries/> is already indexed.

Please find the screenshot below:

The screenshot shows a Semrush analysis for the URL `https://socialworksuccesspath.com/10-types-of-social-work-success-path`. The page title is "1. 10 Types of Social Work Jobs and Salaries - Social Work success path". The Semrush toolbar displays the following metrics: AS: 0, Visits: 0, Pages/Visit: 0, Avg. Visit: 0, Bounce rate: 0. Below the toolbar, there are links for "L: wait...", "LD: wait...", "I: wait...", "whois", "source", and "Rank: wait...". The main content snippet reads: "Explore 10 diverse social work careers and their salary ranges. Discover opportunities in fields like healthcare, education, and advocacy."

I have added a code in robots.txt to further limit the crawling of these pages, which will save your crawl budget.

```
# START YOAST BLOCK
# -----
User-agent: *
Disallow:

Sitemap: https://socialworksuccesspath.com/sitemap_index.xml
# -----
# END YOAST BLOCK
```

CONCLUSION: GSC reports whatever it finds; no need to worry or take action.

02. Page with Redirect

URLs under this report are redirected from one destination to another. This means these pages no longer exist on your site and are thus not indexable.

For example,

<https://socialworksuccesspath.com/reach-your-career-goals/6-social-worker-interview-questions/> is redirected to

<https://socialworksuccesspath.com/6-social-worker-interview-questions/>

You probably removed the subfolder in the past.

These errors occur because old pages are shared on Pinterest. We need to update the URLs on Pinterest, and access is required.

04. Alternative Page with Proper Canonical Tag

| Examples ⓘ | |
|---|----------------|
| URL | ↓ Last crawled |
| https://socialworksuccesspath.com/category/increase-your-competence/feed/ | 3 Jan 2024 |
| https://socialworksuccesspath.com/author/manickathomas/feed/ | 14 Dec 2023 |
| https://socialworksuccesspath.com/category/be-more-productive/feed/ | 14 Dec 2023 |

These are similar feed URLs we addressed in the 'Excluded by noindex tag.'

We don't need to take any action here.

06. Blocked due to Other 4xx Issue

Issue:

The URL `"/wp-admin/admin-ajax.php"` was previously blocked due to a 4xx issue in the robots.txt file. This blocking prevented necessary administrative and AJAX functionalities.

The screenshot shows a table with two columns: 'URL' and 'Last crawled'. The URL listed is `https://socialworksuccesspath.com/wp-admin/admin-ajax.php` and the last crawled date is '18 Dec 2023'. The table is part of a search interface with 'Examples' and a search icon at the top, and pagination controls at the bottom.

| URL | Last crawled |
|--|--------------|
| <code>https://socialworksuccesspath.com/wp-admin/admin-ajax.php</code> | 18 Dec 2023 |

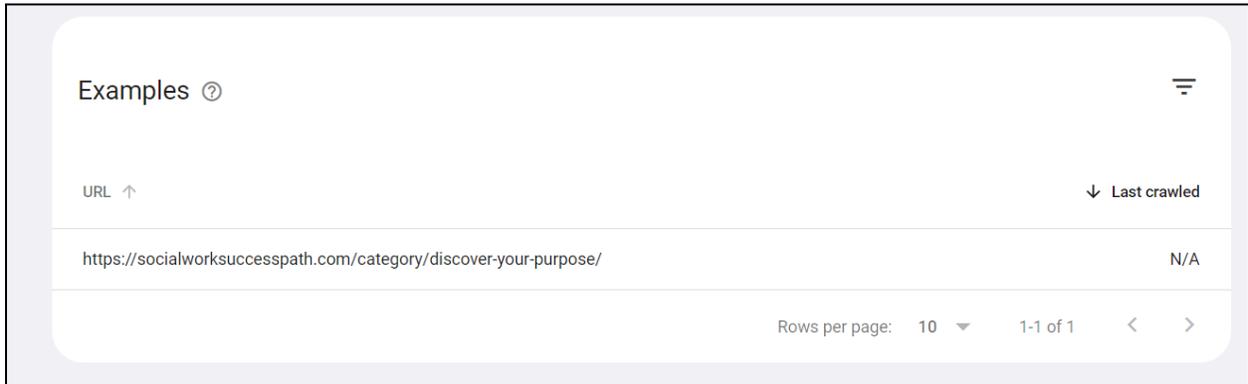

Resolution:

The issue has been resolved by optimizing the robots.txt file to ensure that the **"Allow: /wp-admin/admin-ajax.php"** directive is correctly configured. This adjustment ensures proper access to required administrative processes and functionality.

```
User-agent: *
Disallow:
Disallow: /feed/
Allow: /wp-admin/admin-ajax.php ←
Sitemap: https://socialworksuccesspath.com/sitemap_index.xml
```

07. Discovered – Currently not Indexed

The issue at hand is not a cause for concern; it simply requires resubmission of the page through the console. Once this is done, the page typically takes only hours to index.

The screenshot shows a search console interface with a table titled "Examples". The table has two columns: "URL" and "Last crawled". The URL column is sorted in ascending order, and the Last crawled column is sorted in descending order. The table contains one row with the URL "https://socialworksuccesspath.com/category/discover-your-purpose/" and the Last crawled value "N/A". The interface also includes a "Rows per page" dropdown set to "10" and a "1-1 of 1" indicator.

| URL ↑ | Last crawled ↓ |
|---|----------------|
| https://socialworksuccesspath.com/category/discover-your-purpose/ | N/A |

Note: We couldn't initiate the indexing process initially due to the console's daily quota. However, by resubmitting now, we expect successful indexing within the timeframe.
