

Job Description: Junior Full-Stack Web Developer

What You'll Do

- Develop and maintain complex web applications using modern technologies
- Work closely with our team of experienced developers to learn and grow your skills
- Collaborate with designers to implement intuitive and user-friendly interfaces
- Write clean, maintainable, and scalable code
- Participate in code reviews and contribute to technical discussions
- Stay up-to-date with the latest web development trends and technologies

Why Work With Us?

- Flexible hours, remote work options, and the possibility of working from our offices in Kaunas or Vilnius
- Friendly and supportive team that fosters a positive work environment
- Training opportunities to help you enhance your skills and stay current with industry advancements
- Performance-based incentives to reward your hard work and contributions
- We celebrate team wins and value open communication

Our Expectations

- Prompt and clear communication
- Effective time management and prioritization skills
- Ability to work independently and take ownership of tasks
- Goal-oriented mindset and a drive to achieve results
- Strong attention to detail and a commitment to producing high-quality work

What We're Looking For

- 1-2 years of experience in web development, with hands-on experience in **WordPress development** (e.g., building or customizing themes/plugins, working with Gutenberg or WooCommerce)

- **Working knowledge** of front-end technologies: **HTML**, **CSS**, **JavaScript**, and familiarity with **Tailwind CSS** or other CSS frameworks
- **Practical experience** with **PHP** for WordPress back-end development; familiarity with **Node.js** or **Python** is a plus
- Familiarity with **MySQL** for managing WordPress databases
- Passion for web development, with a strong desire to learn and grow in WordPress ecosystems
- Ability to collaborate in a team using tools like **Git** and **Agile workflows**
- Strong problem-solving skills and attention to detail
- Fluency in **English** (proficiency in **Lithuanian** is a plus)
- Bonus: Knowledge of **SEO**, **web accessibility**, or **performance optimization**

How to Apply

Send your CV or portfolio, along with a short note about why you're a great fit. If possible, include 2-3 last examples of your web development work. We'll review applications and conduct interviews.
