

The Central Educational Center (CEC) charter renewal application resolution, and accompanying assurances, will need to be approved/signed in order that a charter renewal application can be approved by the State Board of Education, and then a 5-year charter flexibility contract for Central Educational Center be put in place by that start of the 2019-20 school year.

The CEC charter flexibility contract is a three-way agreement among the CEC Board of Directors, the Coweta County Board of Education, and the State Board of Education.

State Department of Education rules require that the CEC Board and the Coweta County Board of Education approve the charter renewal application and deliver that to the State Department of Education before May, 2019. Completion of the resolution and assurances signals that the renewal application has been approved by both the CEC Board and by the Coweta County Board of Education.

The CEC Board proposes to the Coweta County Board of Education that the resolution and assurances (attached) be provided to the State Department of Education. The resolution will indicate that:

1. the CEC Board has completed due diligence and wishes to present a charter renewal application in collaboration with the Coweta County Board of Education;
2. that the Coweta County Board of Education also wishes to renew the charter in collaboration with the CEC Board; and,
3. that the Coweta County Board of Education authorizes the CEC Board to submit a charter renewal application to the State Board of Education.

The assurances certify that CEC will operate in compliance with law, regulation and rule.
